8.7.2. Information on accrued and paid income on Bonds	151

Introduction

Basis for the Issuer's obligation to disclose the information in the form of quarterly report:

The Issuer has the securities Prospectus registered in respect of securities of the issuer;

State registration of issue (additional issue) was followed by registration of prospectus on the issue of securities, along with it such securities were offered by public subscription or by private offering to persons which amount did not exceed 500.

The Issuer is a joint-stock company founded during privatization of state and/or municipally owned enterprises (subdivisions) under the privatization plan approved in accordance with the established procedure, representing Issuer's shares issuance prospectus as of its approval date and envisaging the possibility of the Issuer's shares alienation by more than 500 purchasers or by general public.

In the report the Public Joint-Stock Company of Power Industry and Electrification of Kuban is also referred to "Kubanenergo" PJSC, the Issuer and the Company, when referring to the events happened before 22.06.2015 (the date of changing the Company's name) – "Kubanenergo" JSC.

"Rosseti" PJSC ("IDGC Holding" JSC until 04.04.2013, from 04.04.2013 until 17.07.2015 – "Rosseti" JSC) and the names of other legal entities are used here the way they were at the referring period (event).

The report contains additional information requirements for which disclosure are set by the restated Regulations on the Information Policy of the Company approved by the Board of Directors of "Kubanenergo" JSC on 15.08.2013, Minutes No. 170/20013 dated 16.08.2013. The full text of the Regulations on the Information Policy is available on the corporate website "Kubanenergo" PJSC and website of information agency "Interfax": http://www.kubanenergo.ru/about/internal_documents/, <http://www.e-disclosure.ru/portal/company.aspx?id=2827>.

The Issuer's activity is referred to the sphere of natural monopoly being controlled by the state, tariffs for services of electric energy transmission through distribution networks as well as the amount of payment for technological connection to electric power grids are established by the state body for tariff regulation – Regional Energy Commission - Price and Tariff Department for the Krasnodar Region.

Abbreviated DZO means affiliated and dependent companies in accordance with article 6 of the Federal law "On joint stock companies".

The present quarterly report contains estimates and forecasts by the Issuer's authorized management bodies regarding the future events and/or actions, prospects for development of the economy branch wherein the Issuer carries out one's core activity and results of the Issuer's actions inclusive of the Issuer's plans, probability of occurring particular events and implementation of particular activities. Investors should not completely rely on the estimates and forecasts presented by the Management Bodies of the Issuer since actual results of the Issuer's activity in the future may vary from those forecast due to multiple reasons. Acquisition of the Issuer's securities is associated with risks described in the quarterly report.

1.2. Information on Issuer’s auditor

The following information is specified: information about the auditor(s), that exercises (exercised) an independent audit of accounting (financial) statements of the issuer and the consolidated financial statements of the issuer and (or) a group of organizations that are in relation to each other and are controlled by the controlling entities or are required to prepare a statement of other grounds and in the manner provided for by federal law, if at least one of

these organizations is the issuer (hereinafter - the consolidated accounting (consolidated financial) statements of the Issuer), which is part of the quarterly report, based on the contract concluded, as well as auditor (auditors) approved (elected) for auditing the annual financial (accounting) statements of the issuer, including its consolidated financial statements for the current and the last completed fiscal year.

Full business name: Limited Liability Company “RSM RUS”

Abbreviated business name: “RSM RUS”, LLC

Location: **4 Pudovkina street, Moscow, 119285**

TIN: **7722020834**

PSRN: **1027700257540**

Telephone: **+7 (495) 363-2848**

Fax: **+7 (495) 981-4121**

E-mail: **mail@rsmrus.ru**

Details of Auditor's membership in self-regulating auditor organizations

Name: **Self-regulatory organization of auditors Non-profit Partnership “Auditing Association “Sodruzhestvo”**

Location

21/4 Michurinsky Prospekt, Moscow, Russia 11919

Additional Information:

The primary registration number of “RSM RUS” LLC in Self-regulatory organization of auditors Non-profit Partnership “Auditing Association “Sodruzhestvo” is 11306030308.

Financial year(s) from among the last five financial years and the current year for which the Auditor carried out (will carry out) an independent audit of accounting (financial) statements of the Issuer

financial (accounting) statements, year	Consolidated financial report, year
2015	2015

Periods among the five financial last years and the current year for which the Auditor carried out (will carry out) an independent audit of accounting (financial) interim statements of the Issuer

financial (accounting) statements, year	Consolidated financial report, year
9 months of 2015	

Factors that may affect the independence of the auditor (auditing organization) of the issuer, including specified information on any material interests between the auditor (or persons holding positions in the management bodies and the bodies of control over financial and economic activities of the audit organization) and the issuer (persons holding positions in the management and control bodies of financial and economic activities of the issuer):

There are no factors that may affect the independence of the auditor (auditing organization) of the issuer, including specified information on any material interests between the auditor (or persons holding positions in the management bodies and the bodies of control over financial and economic activities of the audit organization) and the issuer (persons holding positions in the management and control bodies of financial and economic activities of the issuer)

Procedure for selection of the Issuer's Auditor:

Existence of a tendering procedure for selection of Auditor and its basic conditions:

On the basis of decision of the Tender committee of Rosseti on summing up the results of public competitive negotiations without prequalification of bidders for the right to conclude contracts on obligatory annual audit of reports of affiliated and depended companies of Rosseti for 2015-2017 (minutes of meeting No.5/552p dated 20.04.2015), the candidature of “RSM RUS”, LLC was pronounced the winner.

Procedure for nominating auditor candidacies for approval by the Meeting of Shareholders (Participants), including indication of the management body making the decision:

According to the Federal Law “On Joint-Stock Companies”, the Auditor of the Company is subject to approval by the General Meeting of Shareholders. However, the legislation fails to set forth the auditor candidacy nomination procedure: unspecified are the terms and the procedure of the auditor candidacy nomination for inclusion in the list for voting on the issue of approval of Auditor of the Company. In this regard, the candidature of an auditor for approval by the general meeting of shareholders shall be preliminary considered by the Audit Committee of the Board of Directors of the Company and, with the advice of the Audit Committee shall be determined by the Board of Directors of the Company in dealing with the issue of preparation and holding of the Annual General Meeting of Shareholders.

Works performed by Auditor within the framework of special audit assignments were not performed.

Procedure for determining the remuneration of the auditor; actual amount of remuneration paid to the auditor by the results of the last completed financial year on which the auditor performed audit of accounting report; information on deferred and overdue payments for the services rendered by the auditor:

The amount of payment for services of the Issuer’s Auditor approved by the General Meeting of Shareholders of the Issuer for compulsory annual review and validation of the Issuer’s annual financial statements is determined by decision of the Board of Directors.

The amount of payment for services of “RSM RUS”, LLC on compulsory audit of financial report of the Company for the year ended 31 December 2015, stipulated by federal Law dated 06.12.2011 No.402-FZ “On Accounting”, on audit of consolidated financial statements under IFRS for the year ended 31 December 2015 amounts 1 614 104 rubles 40 kopeks, including VAT. “RSM RUS”, LLC was selected at the AGM (10.06.2015) as company’s auditor for the first time.

There are no deferred or overdue payments for services provided by Auditor.

Factors that may affect the independence of the auditor from the issuer as well as interests binding auditor (officials of the auditing company) with the issuer (officials of the issuer): no.

1.3. Details of Appraiser(s) of the Issuer

Appraisers were not engaged during 12 months up to the date of end reporting quarter.

1.4. Details of consultants of the Issuer

Consultants were not engaged during 12 months up to the date of end reporting quarter.

1.5 Details of other persons having signed the quarterly report

Name: **Gavrilov Aleksandr Ilich**

Year of birth: **1973**

Place of work: **Kubanenergo PJSC**

Position: **Director General**

Name: **SKiba Inna Viktorovna**

Year of birth: **1975**

Place of work: **Kubanenergo PJSC**

Position: **Chief accountant – head of Department of financial records, accounts and tax returns**

II. Information on business activity of the Issuer

2.1. Business performance of the issuer

Performance indicators that characterize issuer's activity shown according to the accounting report

Standards (rules) used for making the accounting report – RAS (Russian Accounting Standards)

Unit of measurement for index of performance: **rubles/employee**

Indicator	3 months of 2015	3 months of 2016
Workforce productivity	908 017.5	1 249 963.7
Debt-to-equity ratio	1.1	0.95
Leverage ratio	0.34	0.24
Debt coverage ratio (profit)	0.66	0.93
Rate of overdue repayment of debts, %		
Level of overdue receivables, %:	37.62	33.89
Level of overdue payables, %:	59.42	38.74

Indicator	2014	2015
Workforce productivity	3 492 559.9	4 288 273
Debt-to-equity ratio	1.08	0.99
Leverage ratio	0.35	0.25
Debt coverage ratio (profit)	0.15	0.26
Rate of overdue repayment of debts, %		
Level of overdue receivables, %:	49.92	26.56
Level of overdue payables, %:	55.05	32.93

Analysis of the issuer's business activity on the basis of the abovementioned indicators:

Increase of indicator "Workforce productivity" by 37.7% in the 1st quarter of 2016 in comparison with the same period of 2015 is explained by increase in revenue by 32.5% from selling the products (services).

The reduction of indicator "debt-to-equity ratio" in the 1st quarter of 2016 by 0.2 points occurred as a result of reduction of long-term liabilities that influenced the increase of shareholders' equity by 11.4%.

The "leverage ratio" has reduced by 0.1 points by the results of the 1st quarter of 2016.

2.2. Issuer's Market Capitalization

Market capitalization is calculated as the product of the quantity of shares of the corresponding category (type) multiplied by the market price per one share disclosed by the securities market trade organizer.

in thousand rubles

Indicator	31.12.2015	1 st quarter of 2016
Market capitalization	17 226 669	18 443 002

Information on the securities market trade organizer that provided details based whereon calculation of market capitalization is carried out as well as other additional information on securities public circulation at the Issuer's discretion:

Full business name: Closed Joint-Stock Company "MICEX Stock Exchange"

Abbreviated business name: CJSC "MICEX SE"

Location: 13 Bolshoy Kislovsky per., Moscow 125009

In case of existence of overdue accounts payable, including those under credit or loan contracts, as well as under debt securities issued by the Issuer (bonds, promissory notes and other) – indication of the causes of non-fulfilment and the consequences affecting the Issuer, which have occurred or potentially may occur in future due to the above liabilities non-fulfilment including sanctions imposed on the Issuer and the term (supposed term) of overdue accounts payable redemption.

According to Kubanenergo business plan the redemption of overdue accounts payable is projected for 2016, including on debt restructuring arrangements.

Levies, penalties: no.

The main cause of overdue accounts payable - retail companies delay in fulfilling their obligations to the Company for services on electric energy transmission.

Lenders, who account for at least 10 percent of the total amount of accounts payable, or at least 10 percent of the total debt (long and short term):

Full company name: **Joint Stock Company Gazprombank**

Short company name: **Bank GPB (JSC)**

Location: **16/1 Nametkina street, 117420**

TIN: **7744001497**

PSRN: **1027700167110**

Sum of credit: **2 560 000 thousand rubles**

Rate and terms of overdue accounts payable (interest rate, levies, penalties): **no.**

The credit is affiliated to the issuer: **no**

Full company name: **Public Joint Stock Company Sberbank of Russia**

Short company name: **Sberbank of Russia PJSC**

Location: **19 Vavilova str., Moscow 117997**

TIN: **7707083893**

PSRN: **1027700132195**

Sum of credit: **7 000 000 thousand rubles**

Rate and terms of overdue accounts payable (interest rate, levies, penalties): **no.**

The credit is affiliated to the issuer: **no**

Full company name: **Limited Liability Company “Gazprom Invest”**

Short company name: **“Gazprom Invest”, LLC**

Location: **6D Startovaya street,, Saint-Petersburg, 196210**

TIN: **7810483334**

PSRN: **1077847507759**

Sum of credit: **1 323 511.53 thousand rubles**

Rate and terms of overdue accounts payable (interest rate, levies, penalties):**no.**

The credit is affiliated to the issuer: **no**

Full company name: **Open Joint-Stock Company “Kuban energy selling company”**

Short company name: **“Kubanenergobyt” JSC**

Location: **55, Gimnazicheskaya str., Krasnodar, Krasnodar region 350000**

TIN: **2308119595**

PSRN: **1062309019794**

Sum of credit: **1 201 406.18 thousand rubles**

Rate and terms of overdue accounts payable (interest rate, levies, penalties): **no.**

The credit is affiliated to the issuer: **no**

Full company name: **Public Joint-Stock Company “Federal Grid Company of Unified Energy System”**

Short company name: “FGC UES” PJSC

Location: **5A, street named after Akademik Chelomei, Moscow 117630**

Rate and terms of overdue accounts payable (interest rate, levies, penalties):

Overdue accounts payable amounts 507 481.06 thousand rubles.

The credit is affiliated to the issuer: **no**

2.3.2. Issuer's Credit History

Fulfilment of liabilities by the Issuer under credit and/or loan contracts having been in effect during the last completed financial year and (or) loan agreements, including those concluded by issuing and selling bonds, the principal of which is 5% of the net value of the assets as of the date the last complete reporting period, consisting of 3, 6, 9 or 12 months preceding the conclusion of the respective agreement as well as other credit agreements and (or) loan agreements which the Issuer considers material.

The issuer did not have the specified liabilities

2.3.3. Issuer’s liabilities arising from guarantees provided to third persons

The specified liabilities do not exist.

2.3.4. Issuer's other liabilities

There are no other liabilities unrepresented in the balance sheet that may substantially affect the financial status of the Issuer, one’s liquidity, sources of funding and conditions of their use, as well as the results of activity and expenses.

2.4. Risks related to acquisition of issue-grade securities being placed (placed)

Issuer's risk management policy:

“Rosseti” JSC Board of Directors approved Strategy of development and improvement of internal control system of “Rosseti” JSC and subsidiaries and affiliates of “Rosseti” JSC (Minutes No. 143 dd. 13.02.2014), that determines current and target condition of internal control and risks management system of “Rosseti” PJSC and its subsidiaries and affiliates.

To implement this Strategy the Issuer’s Board of Directors approved Policy of internal control and Policy of risks management of Kubanenergo PJSC (Minutes of meeting No. 233/2016 dd. 18.03.2016) that are aimed at timely revealing and providing of preventive actions on minimization of risk (control procedures) to decrease the possibility of financial and other losses that influence at reaching the goals of the Company. The Policy of the Issuer on risks management requires the necessity of compliance with the following principals:

- 1) establishment and protection of the Company's property (the System of Risks Management contributes to the achievement of goals and improvement of productivity, ensuring health and safety employees, ensuring that the safety of all the Company's activities comply with legal and regulatory requirements, environmental protection, improve service quality, operational efficiency, control and reputation);
- 2) Risk management is an integral part of all organizational processes (risk management is not a separate activity that is separate from the activities and processes in an organization; it is a part of management’s commitment and an integral part of all organizational processes, including strategic planning and all project management processes and changes) ;
- 3) Risk management is part of the decision-making process;
- 4) Risk management is systematic, structured and well-timed;
- 5) Risk management is based on the best available information;
- 6) Risk management is transparent and takes into account the interests of stakeholders;
- 7) Risk management is dynamic, iterative (repetitive) and responsive to changes;
- 8) Risk management contributes to the continuous improvement of the organization;
- 9) responsibility for risk management – all participants of the System of Risks Management are responsible for the identification, assessment, analysis and continuous monitoring of risks in the framework of its activities, the development and implementation of the necessary measures for risk management, continuous monitoring of the effectiveness of risk management measures;
- 10) the principle of optimality (analysis of the ratio of expenses for implementation of measures for the risk and impact of the implementation of these measures, including correspondence between the level of complexity of the System of Risks Management and level of complexity and the degree of importance the object, the is analyzed in terms of risk);
- 11) the unity of the methodological framework. Risk management (identification, analysis, assessment and monitoring of risks, development and monitoring of the effectiveness of risk management) are carried out on the basis of approaches and standards, common to all structural units of the Issuer.

Every quarter the Issuer collects and analyses information on internal and external factors that can negatively affect at Issuer’s goals achieving. For minimization of consequences from risks implementation the Issuer developed and carried out the events on prevention of negative consequences; at the same time there are political and economic factors that influence the activity of “Kubanenergo” PJSC in respect of which the Issuer cannot guarantee that events aimed to overriding of possible negative situations can change the situation for the better because these risks factors are out of Issuer’s control.

2.4.1. Industry Risks

Tariff setting risks

Issuer carries out its activity in the power industry sector in Krasnodar region and the Republic of Adygea. Main types of Issuer’s activities are rendering of services on electric energy

transmission and technological connection to electric networks, regulated by the state including setting of tariffs. In such manner one of the Issuer's risks are tariff risks.

One of the most fundamental tariff risks for the Issuer is risk of approving by Regional Energy Commission of Department of prices and tariffs of Krasnodar region the necessary gross revenue on economically unreasonable level – under conditions of limited growth of network tariffs the adoption of decision by Regional Energy Commission of Department of prices and tariffs of Krasnodar region that doesn't take into account in full amount economically feasible expenses of the Issuer, for example, recognition of part of expenses of purchase of electricity losses, interest on the credits, shortfall in income, uncovered previous losses and other. The possibility of this risk is high.

To prevent and mitigate the impacts from implementation of this risk the Company provides supporting materials to regulatory authorities, that confirm level of economically feasible expenses of the Issuer, upholds the position on necessity of outrunning growth of expenditures, as strategic Company, collective fund holder of Krasnodar region and Republic of Adygea, forms and send disputes to Federal Antimonopoly Service of the Russian Federation.

The Issuer is exposed to risks of reducing of revenues amount in connection with changing of structure of electric energy transmission relating to accepted one while tariffs were approved, and risks of changing of legislation in sphere of tariffs setting. The following events are implemented to minimize risks:

- 1) interaction with tariffs regulatory authorities concerning questions related to accounting of losses that were caused by determining at the federal level the sums of falling out income from applying non-regulated price at necessary gross revenue of the Issuer in the next period of tariff regulation;
- 2) forming and submission to authorities of state regulating of tariffs the propositions on technological electric energy/power consumption taking into account dynamics of productive supply for purposes of forming of consolidated balance forecast for production and delivery of electricity for the next year;
- 3) development and implementation of Programme of increasing of electric energy efficiency and its coordination with administration of regions;
- 4) development and implementation of Programme of cost management.

The issuer's sphere of influence in decision-making the bodies of tariff regulation is limited, and the issuer cannot guarantee that the measures aimed at minimizing the consequences will be as effective as possible. In accordance with the order of RF government dated 30.06.2012 No. 663 "Kubanenergo" JSC passed the "reset" of long-term parameters of tariff regulation. The Federal Tariff Service of Russia has agreed to switch to the regulation of tariffs for the transmission of electric energy using the method of return on invested capital. The use of RAB-regulation should help to attract long-term investment in the sector and reduce the influence of subjective factors on the adoption of tariff decisions.

The Issuer is exposed to risk of scarcities of source of funding of events on agreements on implementation of technological connection (hereafter – technological connection) due to approving by regulating authority of paying rate for technological connection lower of economically feasible level. One of the factors of this risks arising is introduction of amendments to legislation of the Russian Federation (Federal Law No. 35-FZ dd. 26.03.2003 "On power industry") on excluding of power receivers of maximum capacity 150 kW from paying for technological connection of investment component for covering of charges for construction of power supply network facilities (from 1 October of 2015 – no more than 50% from amount of specified expenditures, from 1 October of 2017 – excluding this expenditures from paying for technological connection).

To minimize risk the Company cooperates with tariffs regulatory authorities, forms correct scope of obligation on technological connection agreements, develops project documents on scope of obligations on technological connection agreements, submits in regulatory authorities the

additional supporting materials, and adopts economic feasibility of paying rate for technological connection.

Risk of antimonopoly legislation is evaluated by Company as medium.

The reason of risk implementation is non-fulfillment of obligations of the Issuer on technological connection on concluded agreement on technological connection (because of scarcity of funds and large number of agreements on technological connection), it may lead to paying of forfeit by the Company. To avoid the risk the Issuer plans to implement its obligations on technological connection agreement in full.

Risk of reducing the amount of services on electric energy transmission.

Risk of reducing the amount of services on electric energy transmission is industry risk. The reducing of electric energy consumption can be the consequence of external factors influence such as: economy crisis and production decline, construction of electrical generation facilities by customers, extreme weather events, industrial accidents, and industrial disasters. Potential influence of these factors may influence on changing of revenue of the Issuer.

In connection with economic development of the region where the Issuer operates, there is a dynamic of increasing of amounts of electric energy consumption for the last few years. This risk is evaluated as medium. The Issuer implements monitoring of current and expected economic situation in region and in country, fulfills preparation works for appropriate work of power equipment in all seasons, carries out maintenance and repair of power facilities.

Operational risks

In the production process the Issuer is exposed to risks associated with physical deterioration, abuse and critical changes in the parameters of the equipment.

The main ones are:

- 1) deterioration of performance and economic indicators of electric equipment;
- 2) threat of failures with partial or full undersupply of electricity with corresponding negative social consequences;
- 3) failure to comply with the obligations under the contracts for the provision of electricity transmission services;
- 4) negative environmental effects.

In order to decrease the risk of the group the issuer takes the following steps:

- 1) scheduled repair and maintenance of equipment;
- 2) technical re-equipment, reconstruction and new construction;
- 3) regular optimization of structure and amount of components and spare parts in reserve and other;
- 4) providing of industrial security and manufacturing control.

Issuer assesses the level of risk above the average and believes that the negative factors will not materially affect its activities and performance of obligations on its securities.

Price risks

Provision of electricity transmission services includes as well the purchase of raw materials, services, equipment and other materials used by the Company in its operations. The price increase is mainly explained by inflationary pressures and the impact of macroeconomic factors. During the economic instability the risk of augmentation of cost for goods and services used by the Company increases.

In order to minimize these risks, the issuer uses the position of a large consumer and purchases the material and technical resources and selects the service providers through a competitive and regulated procurement of raw materials, production and other services.

2.4.2. Country and regional risks

Risks associated with the political and economic situation in the country and region

The worsening of economic and political situation in the country and the region are main risk factors for the Company.

Because of the fact that the Issuer operates only on internal market, government of the Russian Federation develops programmes on import substitution including in regions where the Issuer operates, it leads to increasing of amount of electric energy consumption. Increasing of energy efficiency and adoption of energy-efficient technologies are development priorities of economics.

In the event of significant political instability, which can negatively affect the operations and earnings, the Issuer takes measures of crisis management, reduces as much as possible the expenses, and investment plans.

Additionally, there are risks associated with military conflicts, introduction of a state of emergency, natural disasters that may have consequences as follows:

- Deterioration of the whole national economy status and, consequently, of the Issuer's financial status;
- Detriment to the Issuer's properties that may negatively affect one's ability to timely and fully fulfil one's liabilities to consumers and counterparties.

The Company operates in the Krasnodar Territory and the Republic of Adygea. The regions where the Issuer carries out one's activity are politically stable with the risk of a military conflict or a state of emergency occurrence there due to internal causes being the minimum. At the same time, because of the proximity of the republics of the North Caucasus region, there is a considerable risk of terrorist acts; for its minimization, the Issuer actively cooperates with state bodies in charge and takes coordinated measures to ensure security of production.

The Issuer has elaborated and is carrying out target arrangements for protection of the Issuers' energy facilities against subversive or terrorist acts.

The Company established a permanent working group on combating terrorism in the power distribution facilities in the region. To compensate for damage of the effect of emergency circumstances associated, inter alia, with natural disasters, the Issuer concludes property insurance contracts.

Sharp regional scale changes (environmental, political, demographic, social) are unlikely, but their emergence will doubtlessly affect the Company's activity.

Taking into account the region transport infrastructure development level, the risks of interruption of transport communication due to difficulty of access or remoteness of location are minimal.

In the Issuer's opinion, the situation in the region will have a favourable effect on the Issuer's activity; there existing no reasons to expect that a change of the situation in the region will entail the Issuer's failure to fulfil one's liabilities.

2.4.3. Financial risks

- Risk of interest rates change:

The Issuer attracts short- and long-term borrowings from the Russian financial market. A substantial increase of interest rates on credits and loans may entail appreciation of the Issuer's debt servicing. For optimization of the debt portfolio structure and reduction of its servicing costs, the Issuer strains after use of credits and loans with the fixed interest rate which results in significant reduction of the above risk. Issuer's supposed actions in the event of negative effect of

interest rates change on one's activity: Attraction of longer-term credits to avoid negative effect of interest rates short-term fluctuations and diversify funding sources.

- Risk of changes of foreign currencies exchange rates:

Carrying out one's core business activity within the territory of the Russian Federation, the Issuer has neither investments into foreign companies value of net assets whereof is exposed to the risk of currency exchange rates fluctuations nor revenues or expenses expressed in terms of foreign currency. Risks connected with exchange rate fluctuations, are not factors of direct impact on the financial and economic activities of the Issuer, but may lead to augmentation of prices for energy equipment. Currently, this risk is assessed as medium. In order to reduce the risk, the Company is implementing a program of import substitution. In case of a further weakening of the national currency the issuer plans to analyse the risks and make appropriate decisions in each particular situation

Risk of reducing the customer's prices

Changes in the consumer price index to some extent affect the Issuer's rate of return and one's financial and business activity results, but their effect is not a direct dependence factor. Indirect dependence of the Issuer's rate of return on changes of the consumer price index is mainly conditioned by the fact that tariffs for services for transmission of electric energy cross electric power grids are established by state tariff bodies on the basis of justified expenses on their provision and fully or partially compensate for growth of the Issuer's expenses associated with inflation. However, during high inflation periods, risks of reduction of the tariff compensatory component amount and of solvency of the Issuer's major consumers grow up.

Taking into account the abovementioned information, there are no guarantees that possible increase of consumer prices will not lead to a drop of the Issuer's rate of return in future.

Inflation risks

To estimate of the inflation level critical for the Issuer appears impossible since, apart from the consumer prices level, one needs to account for changes in the ruble real purchasing power, Russian and international energy carrier markets environment and further state policy regarding tariffs for electric and thermal energy.

The current inflation level may have effect on the Issuer's financial status. For minimization of financial risks associated with inflation processes and affecting the financial results of activity, the Issuer is implementing an integrated program for analysis of financial risks, planning and appraisal of actual profitability of activity; one identifies return rate indices that are indicative of the Issuer's level of cost-efficiency, normative values of financial coefficients characterizing the Issuer's solvency and liquidity, which enable one to promptly detect drawbacks in the Issuer's work and take measures for their elimination.

As well as in accordance with RF Government Regulation No. 1178 dd. 29.12.2011 "On price formation in sphere of regulated prices (tariffs) in power industry" when regulating electricity tariffs inflation level should be taken into consideration (consumer price index), that was defined in the prognosis of social and economic development of the Russian Federation. Thus, the Issuer considers these risks as moderate.

The Issuer's financial reporting indices are most badly subject to changes resulting from the effect of the abovementioned financial risks including risks, the possibility of occurrence and character of changes in the report: The index of accounts receivable accruing due to counterparties' incapability to pay for the Issuer's services is most badly subject to change in the Issuer's reporting resulting from the abovementioned risks occurrence This risk occurrence probability is not high and is related to situation in the country in general, inflation and changes of currency exchange rates and their effect on the Russian economy as a whole. Deterioration of the economic situation in Russia may affect growth of costs of electric energy transmission

across the Issuer's electric power grids, which will lead to profit reduction if the established tariffs remain in effect. In order to reduce this risk, the issuer carries out the work on receivables management aimed at optimization of its amount and repayment of debts.

2.4.4. Legal risks

The Issuer carries out one's activity only in the domestic market; consequently, the legal risks are considered only from the corresponding point of view.

Risks associated with tax and environmental legislation and customs and currency regulation.

Since no special taxation mode is applicable to the Issuer's activity and the Issuer has no overdue tax and levy indebtedness to budgets of all levels, the Issuer's tax risks are considered as the minimum within the framework of a conscientious taxpayer's activity.

In the shorter term, the Issuer does foresee emergence of any significant risks in one's financial and business activity associated with changes in tax and civil legislation.

Changes of currency and customs legislation of the Russian Federation are of no relevance for the Issuer's activity and, consequently, do not entail emergence of legal risks.

In case of changes and/or launch of requirements for licensing the Issue's core activity the Issuer will take all necessary measures for obtaining the licenses and permissions required.

The Issuer has licenses for carrying out other activity data whereon is given in Clause 3.2.5 of this report.

The Issuer carries out regular work for prolongation of the licenses necessary for conduction of its business activity.

The Issuer's exposure to the above risk may be considered insignificant. Risks connected with absence of possibility to extend the license of the Issuer are minimal and cannot influence on Issuer's fulfillment of obligations on placed securities.

2.4.5. Reputational risk.

The risk that the issuer of incurs losses due to such factors as a reduction in the number of customers (counterparties) because of the formation of negative image of financial stability, the financial position of the issuer, the quality of the work, is considered as minimal. The Issuer is a natural monopoly, there is an annual increase in the number of electricity consumers. In addition, the Issuer developed good practice for long-term cooperation with its partners.

2.4.6. Strategy risk

The Issuer, being a part of the single distribution grid complex of Russia, seeks to achieve the objectives defines at the national level. On 3 April 2013 the Russian Government approved the development strategy for the electric grid complex of the Russian Federation. Due to the fact that the Issuer is a subsidiary of Rosseti, the largest Russian backbone grid company, the Issuer is a participant in implementation of policies and programmes on activities (business processes) of Rosseti PJSC. The decision to start the implementation of a specific strategy (programme) in the activities of the Issuer's shall be accepted by the Board of Directors.

The probability of the risk of the Issuer losses arising from errors (defects) made in management decisions, defining the strategy and activities of the Issuer, is assessed as low.

Measures to prevent the occurrence of this risk are:

- continuous monitoring by the structural units of the Issuer's the ratio of the cost of implementing a specific strategy to the received profit and submission to the Board of Directors of the Issuer of the information for decision-making (including, by definition, the quantity and quality of resources);
- elaboration of proposals and scenarios to improve the implementation of specific policies

- and programmes;
- development and implementation of key performance indicators to achieve policies, linking them with bonuses of managers of the Issuer;
- analysis of the effectiveness.

2.4.7. Risks connected with Issuer's activity

Risks connected with current legal trials where the Issuer participates.

The Issuer participates in legal trials the results of which can influence at financial and operational activities of the Issuer. Enforcement proceeding is implemented in regard to accounts and loan receivables of the Issuer.

The Issuer carries out monitoring of judicial practice that allows to use this information for reaching positive judicial decision for the Issuer. Currently there are no changes in judicial practice that can negatively affect at results of current trials and thus on the results of business activity of the Company.

Risks connected with potential liability of the Issuer on debts of third parties including affiliates of the Issuer. The Issuer has affiliate joint stock companies with owning of 100% shares in the authorized capital. As the parent Company for subsidiaries and affiliates, the Issuer can be responsible for their debts. These liabilities can negatively effect on results of financial and operational activities of the Issuer. The possibility of specified risks is evaluated as medium. Risks connected with possibility of loss of customers that constitute at least 10% of total revenue from sales of products (work, services) of the Issuer.

The Company cooperates with main customers and is monopolist in sphere of services rendering on electric energy transmission in the regions of the Issuer's activity. The possibility of loss of main customers is minimal. Risks in manufacturing activity of the Issuer:

- 1) systematic interruption of power supply of customers in the result of accidents and disturbances at grid sections and substation equipment;
- 2) violation of requirements of GOST 13109-97 on providing the quality of electric energy;
- 3) disturbance of regime of electric energy transmission and reducing of quality of rendered services;
- 4) non-implementation of maintenance (including diagnosis) and repair in time;
- 5) low quality of repair works implementation;
- 6) methodological mistakes while planning repair programme;
- 7) incorrect ranking of reparable facilities;
- 8) occurring of emergency situations in related networks, that can breakdown the equipment of the Issuer;
- 9) excessive losses of electric energy.

To reduce these risks the Issuer pays much attention to development of electric grid complex with using of science based engineering decisions and technologies, tested in operation, modern electric equipment.

Increasing of tariffs on rendered services by the Issuer, due to increasing of "external" expenses influence on risks: purchased electric energy on losses compensation, changing of amount of payment of services for electric energy transmission of "FGC UES" PJSC and other factors.

Investment risk

Implementation of investment programme of the Issuer demands fund raising both owned and loaned, on conditions satisfying the requirements of RAB-regulating.

One of the investment risks is risk of reduction of sources of financing of Company's investment programme. Currently this risk is rated as minimal and is determined by influence of the following factors: decline in the ruble, upturn in inflation, and rise in cost of debt capital.

To decrease the investment risk the investment programmes of the Issuer are planned taking into account following key criterions of efficiency:

- increasing of reliability and availability of network infrastructure;
- decreasing of amortization and modernization of facilities of power supply network system;
- reaching of high load of commissioned capacity;
- optimization of engineering solutions out of necessity of excluding the usage of imported equipment and materials, cost of which has high dependence from rate of exchange.

To minimize risk of untimely and incorrect implementation of investment programme, the Issuer approved several local document aimed to fulfillment of control of terms and quality of investment projects.

Investment risk

Implementation of the Issuer's investment programme requires the use of significant financial resources, both Company's own and borrowed on terms that meet the parameters of the RAB-regulation.

One of the investment risks is the risk of reduction of financing sources of the investment programme. At present, this risk is assessed as minimal and is due to the influence of factors such as decline in the ruble, inflation, rising cost of debt capital.

As part of the investment risk reduction, the investment programme of the Issuer is planned with regard of the following key performance criteria:

- Increase in the reliability and availability of the network infrastructure;
- Reduction of wear and modernization of the electric grid facilities;
- Achieving a high load input power;
- Optimization of technical solutions based on the need to avoid the use of imported equipment and materials, the cost of which has a high dependence on exchange rates.

To minimize the risk of untimely and low-quality implementation of the investment programme, the Issuer approved a number of regulative documents, aimed at monitoring the timing and quality of the implementation of investment projects.

III. Detailed information on the Issuer

3.1. History of foundation and development of the Issuer

3.1.1. Information on the Issuer's business name (registered name)

Issuer's full business name: **Public Joint-Stock Company of Power Industry and Electrification of Kuban, Публичное акционерное общество энергетики и электрификации Кубани**

Date of introducing the current company name: **22.06.2015**

Short company name: **Kubanenergo PJSC, ПАО "Кубаньэнерго"**

Date of introducing the current company short name: **22.06.2015**

Company's name (name of non-profit partnership) registered as trade mark or service mark

Information on registered trademarks:

On 30.01.2013 and 19.07.2013 (certificates No.479755 and No.4922215) the Federal Intellectual Property Service registered trademarks (service marks) in favour of the Company in Russian language – КУБАНЬЭНЕРГО. Duration of the registration of a mark ends on 27.12.2021.

Full company name: Kuban Open Joint-Stock Company of Power Industry and Electrification

Short company name: "Kubanenergo" JSC

Date of introducing the name: **10.02.1993**

Ground of introducing the name: **State registration of the issuer's Charter**

Full company name: Open Joint-Stock Company of Power Industry and Electrification of Kuban

Date of introducing the current company name: **29.05.1996**

Short company name: **"Kubanenergo" JSC**

Date of introducing the current company short name: **30.06.1998**

Previous company names

Full company name: Kuban Open Joint-Stock Company of Power Industry and Electrification

Short company name: **"Kubanenergo" JSC**

Date of introducing the name: **29.05.1996**

Ground of introducing the name: **State registration of the issuer's restated Charter**

Full company name: Kuban Open Joint-Stock Company of Power Industry and Electrification

Short company name: **"Kubanenergo" JSC**

Date of introducing the name: **30.06.1998**

Ground of introducing the name: **State registration of adjustment to the issuer's Charter**

3.1.2. Data on the Issuer's State Registration

Data on primary state registration

State registration number: **127**

State registration date: **10.02.1993**

Name of the body having carried out primary state registration: **Administration of the Oktyabrsky District of Krasnodar**

Data on legal entity registration;

Primary legal entity state registration number: **1022301427268**

Registration date: **17.09.2002**

Name of registering body: **Inspectorate No. 3 for Krasnodar of the Ministry of Taxation of the Russian Federation**

3.1.3 Information on establishment and development of the Issuer

The Issuer has been founded for an indefinite period.

Brief description of the Issuer's foundation and development history: Issuer's establishment objective, mission (if any) and other information on the Issuer's activity required for taking decisions on acquisition of the Issuer's securities:

History of Kuban electrification began in the late 19th century with the commissioning of power plants intended for provision electric lighting of settlements, energy supply of Novorossiysk elevator and Ekaterinodar tramway. Until 1917 there were 353 plants with total capacity of 13.7

MW (the largest in Ekaterinodar, Novorossiysk, Armavir, Yeisk, Maikop, Sochi, Anapa, Labinsk, villages Starominskaya, Krymskaya and Tuapse harbour). With the establishment of Soviet power in the Kuban region in April 1921 the Kuban-Black Sea Economic Council established "Elektrootdel" which main tasks were management of facilities at existing power plants, as well as construction of new ones.

In 1922 association "Vodeltram" was founded in the capital of Kuban region, consisting of municipal and utility services for water supply, transport (tram) and electricity. The length of the transmission lines was 45 km, electric networks were designed for a voltage of 2 kV.

With the approval of electrification plan began the rapid construction of power plants, but interrupted by the Great Patriotic War. By 1940, the total electric capacity of power stations reached 100 MW, and electricity generation in 1940 totaled 394 million kWh

In 1942 - 1943 Kuban's territory was under occupation, the power base was almost destroyed.

In order to restore the ruined power network of the Kuban and for its further development, by the Order of the People's Commissar of the USSR from March 14, 1944 No.66 the Krasnodar district energy management "Krasnodarenergo" (REU) was organized. The principal activities of RG were the production, distribution and sale of electricity and thermal energy, recovery and development of energy systems, power control and supervision over the operation of power equipment on plants. The jurisdiction of the RG on the Rights of the independent self-supporting enterprises were power plants, substations, network areas, repair-mechanical plant, the central warehouse, planning and surveying offices, industrial and research laboratory.

By 1959 the installed capacity of Kuban power system was 337 MW (excluding diesel and isolated generating plants).

In the late 50s - early 60s we installed transmission networks of 110 kV and 220 necessary for connecting the power system of southern Russia and the Caucasus, railroad network was electrified, electricity distribution facilities were built, electrification of rural areas reached 86% . In 1963, in accordance with the order of USSR Council of Ministers dated 14.05.63, city and rural electric grids were transferred to regional electricity board.

The rapid growth of electricity consumption by the national economy of Kuban in 1970-1980 led to the construction of a large number of transmission lines and substations, switching to a higher voltage classes - 330 and 500 kV. The total length of transmission lines reached 90 thousand km and amount of substations of 35-500 kV exceeded 700.

On November 1, 1988, in accordance with the order of USSR Council of Ministers dated 02.07.87 # 812, Krasnodar district network "Krasnodarenergo" was discontinued, and on the basis of its subordinate enterprises and organizations Krasnodar Production Association of Power industry and Electrification "Krasnodarenergo" was established.

In 1993, in accordance with Russian legislation on privatization of state and municipal enterprises Krasnodar Production Association of Power industry and Electrification "Krasnodarenergo" was reorganized into "Kubanenergo" JSC with the following branches Krasnodar TPP, "Energonadzor" repair and construction company, training center, recreation centre, summer camp. In accordance with Presidential Decree of 15.08.1992 # 923 "On control of the power industry of the Russian Federation in the context of privatization" 49% of the Company's shares were transferred as the payment of the authorized capital of RAO "UES of Russia" in 1993, while the remaining 51% stake of "Kubanenergo" were acquired via private subscription by employees of the Company and other persons/entities entitled to benefits under the State program of privatization.

In 2003-2006 "Kubanenergo" JSC, as well as power industry in general, has undergone large-scale reforms.

The main objective of the Russian electric power industry reformation is the increase of efficiency of the enterprises of the branch, creation of conditions for the latter development on the basis of investment process motivation and provision for reliable and uninterrupted supply of energy to consumers.

During the reformation “Kubanenergo” JSC got rid of service and non-core types of activity as well as dispatching functions by way of entrusting them to dedicated special entities:

- Operative dispatching management functions were transferred to Open Joint-Stock Company “System Operator of the Unified Energy System”;
- Open Joint-Stock Company “Krasnodarenergoremont”, “Krasnodarenergosetremont”, “Recreation Centre “Energetik” and Recreation Centre “Plamya” were founded;
- Non-State Non-profit Educational Institution “Kubanenergo” Training Centre” was founded where workers of the Company and other power industry enterprises advance their qualifications and master new trades.

In 2006, as the result of reorganization of “Kubanenergo” JSC, the following open-end joint-stock companies appeared:

“Kuban Generating Company”, with the generating capacities of the Company (Krasnodar CHP and minor-scale hydroelectric power plants) included in one’s authorized capital;

“Kuban Trunk Grids”, authorized capital whereof was composed of electric power grid facilities related to the Unified National Electric Power Grid (with voltage = 220 kV and higher);

“Kuban Energy Selling Company” discharging the functions of a guaranteeing electric energy supplier, additionally in charge of electric energy purchase in the wholesale market and supply to end consumers.

At present “Kubanenergo” PJSC is the biggest electric power grid company in the Krasnodar region and Republic of Adygea that transmits and distributes electric energy to consumers via 110 kV electric power grids with voltage or less between populated regions, rural settlements and cities and district centres of the Krasnodar region and Republic of Adygea including Sochi.

“Kubanenergo” JSC carries out its main activity under conditions of natural monopoly regulated by the state in the part of setting tariffs for electric energy transmission and provision for consumers a non-discriminatory access to electric power grids.

Since July 1, 2008 “Kubanenergo” has been a dependent company of “IDGC Holding” JSC (now “Russian Grids” JSC) having received a pack of the Company’s voting shares through legal succession under a dividing balance sheet as a result of reorganization of “RAO UES of Russia” in the form of separation.

The Company mission is reliable, efficient and safe transmission of electric energy to consumers and provision of shareholder with stable income.

Strategic objectives of the Company:

1. provision of quality, reliable and uninterrupted energy supply to consumers;
2. reduction of energy facilities wear;
3. bringing operational efficiency indices to the level of efficiency of distribution grid companies in advanced countries by 2020;
4. creation of a reserve of electric power grids carrying capacity to a volume outstripping the development of economy by 3 years;
5. adoption of innovative technologies corresponding to the world’s best standards in the field of electric energy distribution at all stages of the technological process;

6. provision of high rate of return on investments in the distribution grid sector at the level of cost-efficiency of companies operating under comparable market activity conditions in the Russian Federation.

7. Implementation of federal target programme “The social and economic development of the Republic of Crimea and the federal city of Sevastopol until 2020”, approved by RF Government on 11.08.2014 No. 790.

To achieve the stated objectives the Company:

- implements large-scale investment programs coordinated by the Ministry of Energy of the Russian Federation and considering prospects of development of the economies of the Krasnodar Territory and the Republic of Adygea;
- implements the Company’s Financial Recovery Programme;
- is determined to increase the portion of energy facilities repairs using own resources to reduce the cost of repair and ensure the proper level of quality control of repairs;
- seeks to carry out large-scale renovation of fixed assets;
- maintains a high level of professional competence of the Company’s workers through continuous personnel training (including in the sphere of quality, ecology, occupational safety and health);
- constructs the line and substation facilities in the process of grid connection if need.

3.2.2. Issuer's core business activity

The Issuer's business activities (type of activities, type of goods (works, services) which made up not less than 10 percent of the Issuer's revenue (income).

Unit of measurement: thousand rubles

Type of activity: **Services on transmission of electric energy**

Indicator	2014	2015
Revenue from this business activity, thousand rub	28 464 228	34 403 020
Portion of revenue from this type of business activity in the total amount of revenue of the Issuer, %	96.8	96.4

Indicator	3 months of	3 months of 2016
-----------	-------------	------------------

	2015	
Revenue from this business activity, thousand rub	7 861 654	9 449 698
Portion of revenue from this type of business activity in the total amount of revenue of the Issuer, %	99.2	90

Information on changes of revenue (proceeds) from core business activity by 10 percent and more compared with the corresponding previous reporting period and causes of such changes:

Revenue from electricity transmission services for 2015 amounted to 34 403.0 million rubles, which is higher than in 2014 by 5 938.8 million rubles. Such revenue is due to increase in energy consumption, including through the development of infrastructure of the Krasnodar region and the Republic of Adygea in 2015.

Revenue from electricity transmission services for the 1st quarter 2016 amounted to 9 449.7 million rubles, which is higher than the parameter of the same period of 2015 by 1 588.0 million rubles. The increase in revenue is due to actual increase in the volume of services provided by 45 million KWh.

Additional information disclosed in accordance with the Statement on informational policy of the Company:

Electric energy transmission

The main indexes of electric energy transmission of Kubanenergo PJSC (thousand kW*h):

Indicators	2014	2015	1st quarter of 2015	1st quarter of 2016
Receipt of electric energy into the Company's grid for its transmission under service contracts	21 572 652.878	22 032 577.69	5 880 255.04	5 924 850.13
Electric supply	18 719 928.951	19 196 901.14	4 974 534.16	5 040 444.34
Productive supply of electric energy by the "boiler" method	17 081 926.17	17 457 233.80	4 407 588.62	4 484 020.20
per voltage levels				
- high voltage (110 kV and more)	3 873 668.41	3 878 765.60	959 411.95	900 832.14
- medium voltage 1 (35 kV)	1 126 371.39	1 110 177.77	270 161.32	250 198.51
- medium voltage 2 (1-20 kV)	5 185 745.21	5 300 565.21	1 341 172.02	1 381 562.99
- low voltage (0.4 kV and less)	6 896 141.16	7 167 725.23	1 836 843.33	1 951 426.56
Actual losses of electric energy	2 852 723.93	2 835 676.550	905 720.89	884 405.80
Saving (+) / loss (-) of electric energy from the allowed losses	-16 438.9	- 74 826.96	- 18 628.50	-35 464.39

Quarterly forecast for production results and comments

The main purpose of Kubanenergo in 2016 is to pass trouble-free the winter and summer peak loads, the timely implementation of the activities of supervisory authorities to obtain a certificate of preparedness, the performance of investment and maintenance programmes that will create an opportunity for further connection of consumers to the networks of Kubanenergo PJSC and minimization of excessive losses.

To fulfill the targets of financial and economic activity of electricity transmission it is necessary: to implement the planned structure of productive supply by voltage levels; to eliminate the growth of costs on housekeeping overheads and uncontrolled expenses of the Issuer.

A significant risk in 2016 for electricity transmission is:

- imprecise planning of balances of electric energy and capacities by the regional market participants and Regional Energy Commission of the Krasnodar region
- approval of the mid-year of the electricity transmission tariffs for the newly formed network of related organizations, the emergence of uncompensated costs on them
- in case of transition to payments for network maintenance there increases economic responsibility of sales companies for non-compliance of the actual structure of productive supply to consumers from the planned, by voltage levels
- low payment discipline of energy selling companies, failure to comply with their contractual obligations.

Technological connection of consumers to the Company's electric power grids

The company concluded 29 481 contracts for technological connection to the electric power grids with total capacity 718 MW in 2015. Cash collected amounts to 2 351 million rubles (VAT excluded), proceeds equal to 1 213 million rubles. The volume of cash was received mostly from consumes having submitted applications for capacity in excess of 150 kW.

In fact, in 2015, 30 049 consumers with total capacity 691 MW were connected (generation considered).

The company concluded 5 992 contracts for technological connection to the electric power grids with total capacity of 119 MW in 1st quarter of 2016. Cash collected amounts to 36 million rubles (VAT excluded), proceeds equal to 1 026 million rubles. The volume of cash was received mostly from consumes having submitted applications for capacity in excess of 150 kW.

In fact, 6 724 consumers for total capacity of 124 MW were connected (generation considered) in the 1st quarter of 2015.

Core production capacities of the Company (as of 01.01.2016):

Length of 110, 220 kV high voltage lines	110 kV overhead lines – 4 962.77 km (route) 110 kV overhead lines – 6 333.25 km (circuits) 220 kV overhead lines – 76.1 km 110 kV cable lines – 78.75 km
Length of medium voltage lines (6 - 35 kV)	Power lines 6-35 kV – 41152.67 km (route) Power lines 6-35 kV – 41983.55 km (route), including: Overhead-35 kV – 6932.52 km (route) Overhead -35 kV – 7763.4 km (circuit) Overhead - 6-10 kV – 32556.28 km Cable lines-35 kV – 0.46 km Cable lines- 6-10 kV – 1663.41 km
Length of 0.4 kV low voltage lines	04 kV – 41948.98 km, including: overhead lines – 41475.55 km cable lines – 473.43 km

Number/capacity of substations with high (110 kV) basic voltage	219 substations/7012.0 MVA
Number/capacity of substations with high (35/6-10 kV) basic voltage	496 substations/2420.7 MVA
Number/capacity of transformer substations (6-35/0.4 kV)	22508 substations/4556.52 MVA

Additional information of Company's business activity

Economic indicators:

	Indicator	3 months of 2015	3 months of 2016
1	Revenue from selling products (services), total,	7 922 453	10 494 695
2	Production (services) costs, total	7 742 965	8 995 220
3	Gross profit, total	179 488	1 499 475
4	Net profit, total	-254 810	378 250

Changes in financial and economic activity of Kubanenergo in the 1st quarter of 2016 compared with the 1st quarter of 2015, is characterized by the following changes:

- increase in revenue from sales of products (services) in the reporting period by 2 572.4 million rubles or 32.5%, due to the increase in revenue from electricity transmission services by 20.2%;
- increase in revenues for services on technological connection by 981.1 million rubles%;
- increase in cost of sales by 1 252.3 million rubles or 16.2%;
- increase in net profit for the reporting period by 633.1 million rubles.

The accounting policy of the Company allows the structuring of revenue and cost of goods sold (services) business areas with access to the overall financial performance of the company.

Debt to equity ratio

Indicator	2014	2015	3 months of 2016
Debt to equity ratio, %	1,70	1,89	1,89

The debt to equity ratio shows the share of borrowed funds in the capital structure of the company. In 2015 this index improved by 0.19 points and was 1.897. There is a positive trend.

The dynamics of growth (falling) incomes, thousand rubles:

#	Indicator	2014	2015
1	Net proceeds from selling production, service, total, including	29 393 384	35 704 161
1.1.	from transmission and transit of electric energy through networks	28 464 228	34 403 020
1.2.	from grid connection services	847 766	1 213 257
1.3.	other products (services) of core activity	81 390	87 884

#	Indicator	3 months of 2015	3 months of 2016
1	Net proceeds from selling production, service, total, including	7 922 453	10 494 695
1.1.	from transmission and transit of electric energy through networks	7 861 654	9 449 698
1.2.	from grid connection services	45 006	1 026 139
1.3.	other products (services) of core activity	15 793	18 858

By the results of the 1st quarter of 2016 revenues from sales of products, works and services amounted 10 494.7 million rubles, which is 2 572.2 million rubles or 32.5% higher than in the 1st quarter of 2015. The main influence on the increase in this index had an increase in revenues for the electricity transmission services by 1 588.0 million rubles or 20.2% and increase in revenue from grid connection services by 981.1 million rubles.

Expenditures:

#	Expenses for production and selling of products	mln rubles	mln rubles			
			2015/2010	2015/2012	2015/2016	2015/2014
1	2011	29 630,2	111,9	117,9	102,9	110,8
2	2012	28 119,2				
3	2013	32 201,4				
4	2014	29 918,8				
5	2015	33 149,3				

Growth of the cost for production and sales in 2015, compared with 2014, by 3 230 million rubles was due to increase in expenses for:

- purchased energy for losses – by 1 026 million rubles (due to increase in the average price for the purchase of power losses)
- network services for electricity transmission companies – by 1 026 million rubles (due to increase in volume of transmitted energy via grids of other power companies and increase in their amount)
- depreciation – by 718 million rubles because of commissioning of fixed assets in Sochi district for preparation to Olympic and Paralympic Winter Games 2014
- taxes and levies – by 131.0 million rubles due to the growth of property tax as a result of implementation of Company’s investment programme
- miscellaneous – 735 million rubles, due to growth of “Expenses on grid connection to networks of other companies” by 1 241 million rubles due to inclusion of expenses on connection of 220kV substation “Buzhora” to networks of “FGC UES” PJSC in December 2015 .

1.2	Production (services) of non-core activity	0	0

By the results of the 1st quarter of 2016 revenues from sales of products, works and services reached 10 494.7 million rubles, which is 32.5% higher than the corresponding figure of the 1st quarter 2015. The main influence on the increase of this indicator has had an increase in revenues for network services by 2 569.2 million rubles or 32.5%, including an increase in revenue from electricity transmission services by 1 588.0 million rubles, as well as increased revenue from technological connection by 981.1 million rubles.

Quarterly forecasting of financial results and comments:

The activities of the Company are planned on the basis of the following indicators:

- consolidated forecast balance of production and supply of electric energy within the Unified Energy System of Russia by subjects of the Russian Federation;
- forecast of growth in tariff on electricity transmission services;
- forecast of growth in consumer prices;
- forecast of growth in purchase of electricity to cover energy losses;
- amount of electricity losses, taking into account the depreciation of equipment, modes of loads on networks, business losses, etc.

self-supporting insulated wire by 15,7 %
uninsulated wire by 12%

Portion of import in the material and goods supply, the forecast with respect to accessibility of import in the future and possible alternative sources of import

Import supplies are not used.

3.2.4. Target markets of the Issuer's products (works, services)

Core markets wherein the Issuer carries out its activity:

The Company is the largest electric power grid company in the Krasnodar Territory and Republic of Adygea carrying out transmission and distribution of electric energy across electric power grids with voltage equal or below 110 kV among the populated localities, in rural settlements and individual cities and regional centres of the Krasnodar Territory and Republic of Adygea including Sochi.

The market share on services of energy transmission was 66.8% within 2014 and 70.26% within 2015.

“Kubanenergo” PJSC carries out its main activity under conditions of natural monopoly regulated by the state to the extent of establishment of tariffs for electric energy transmission and provision for non-discriminatory consumers’ access to electric power grids. Taking into account

the growing demand for electric energy in the region, the Company pays great attention to development, reconstruction and increase of carrying capacity of electric power grid facilities, reckoning on increase of one's services sales volume in future.

Since 01.07.2007 a "boiler" method of settlements for transmission of electric energy is in force in the region, with the "boiler holder" status reserved to "Kubanenergo" PJSC. This means that all energy selling companies marketing electric energy in the regional market pays to "Kubanenergo" PJSC for services for electric energy transmission across electric power grids of the whole regional energy system within the framework of contracts for electric energy transmission while "Kubanenergo" PJSC pays for electric energy transmission services to territorial grid companies.

Since September 22, 2011 an individual calculation scheme based on the "boiler below" principle has been used in the Krasnodar region with regard to LLC "Maykop CHP" Grid Company. Within the framework of this scheme, "Kubanenergo" PJSC provides electric energy transmission services to LLC "Maykop CHP" grid company and receives payment as per the individual tariff established by REC-PTD KT.

In the reporting quarter, the core consumers of "Kubanenergo" PJSC energy transmission services were:

- guarantee suppliers (3) ("Kubanenergobyt" JSC, "NESK" JSC, "Oboronenergobyt" JSC),
- energy selling companies (21) ("MAREM+" CJSC, "Disage-M" LLC, "RUSENERGOSBYT" LLC, "REK" LLC, "RUSENERGOESURS" LLC, "Transservicenergo" CJSC, "RN-ENERGO" LLC, "Experstroy" LLC, "MK SBYT", "KNAUF ENERGIYA" LLC, "Southern energy selling company" LLC, "MagnitEnergo" LLC, "Mosenergobyt" JSC, "KES" LLC, "Yugstroy-Energobyt" LLC, "Energoeffektivnost" LLC, "Pro-Energy LLC, "Kvant" LLC, "NSK" LLC) – participants of wholesale and retail markets that carrying out its activity on selling of electric energy to final consumers, connected to power grids of the Company and power grids of other Companies;
- a number of consumers (109) that concluded with Kubanenergo irect contracts for electricity transmission ("Novorostsement" JSC, "Tamanneftegaz" CJSC, "Kubanzheldormash" CJSC, "Euro Khim-Belorechenskie Minudobreniya" LLC, "Poultry farm "Primorskaya" LLC, "Fanagoria" APF, "Agrofirma stud farm "Pobeda" CJSC, "Kubanskiy bacon" LLC, "Sad-Gigant" CJSC, "Verkhnebakan cement factory" CJSC, "Abrau Durso" CJSC, "Pilot" CJSC, "Novoroslesexport" JSC, "Stud farm "Leninskiy put" JSC, "Stud farm "Gulkevichskiy" CJSC, "RAMO-M" CJSC, "Novomol" LLC, "Uspenskiy sakharnik" CJSC, "Pioneer" CJSC, "Novorossiysk commercial seaport" JSC, "Formika-Yug" LLC, "Kanevskiy Gas fitting plant" LLC, "IPP" JSC), concluded Agreement for the transmission of electricity;
- grid company - transmission and distribution of electricity on the grid to consumers and related distribution companies ("Maikop CHP" LLC).

Factors that may affect the products (works, services) marketing by the Issuer and possible actions of the Issuer to reduce such effect:

Negative factors that may have a negative effect on "Kubanenergo" PJSC products marketing represent political risks associated with decisions of the Government of the Russian Federation on issues related to development of electric power branch and risks associated with relations with local bodies; economic risks associated with state regulation of prices for the Issuer's products; financial risks associated with the conditions and value of borrowed resources attraction; risks associated with operation of core equipment (electric energy transmission) as well as other risks. Currently, the Issuer does not forecast substantial deterioration of the branch situation. In case of substantial deterioration of the branch situation, the Issuer plans to make risks analysis and to take corresponding decision in each specific case.

3.2.5. Information on the Issuer's licenses

Name of the body issued the license: **Ministry of Natural Resources of the Russian Federation**

Number of licence or document evidencing the access to particular types of activities: **licence for the use of subsurface resources KRD No. 80383VE**

Type (types) of activity for performance of which the issuer obtained a licence or and access: **Recovery of fresh subsurface waters for household, potable and process water supply in Krasnodar.**

Date of issue of licence or access to particular types of works of licence or access to particular types of works: **30.11.2015**

Expiry date of licence or access to particular types of works of licence or access to particular types of works of licence or access to particular types of works: **20.07.2034**

Name of the body issued the license: **Ministry of Natural Resources of Krasnodar region**

Number of licence or document evidencing the access to particular types of activities: **licence for the use of subsurface resources KRD No. 80380BЭ**

Type (types) of activity for performance of which the issuer obtained a licence or and access: **Recovery of fresh subsurface waters for household, potable and process water supply in Tverskaya village, Apsheroniy district**

Date of issue of licence or access to particular types of works of licence or access to particular types of works: **26.10.2015**

C Expiry date of licence or access to particular types of works of licence or access to particular types of works of licence or access to particular types of works: **01.01.2035**

Name of the body issued the license: **North Caucasus Federal service on environmental, technological and nuclear supervision**

Number of licence or document evidencing the access to particular types of activities: **Licence BII-30-003995 series AB 087343**

Type (types) of activity for performance of which the issuer obtained a licence or and access: **operation at explosive/flammable facilities**

Date of issue of licence or access to particular types of works: **11.11.2011**

Expiry date of licence or access to particular types of works: **Perpetual**

Name of the body issued the license: **Self-Regulating Organization NP "Energostroy"**

Number of licence or document evidencing the access to particular types of activities: **0212.02-2010-2309001660-S-060**

Type (types) of activity for performance of which the issuer obtained a licence or and access: installation, strengthening and dismantle structural elements and protecting structures of buildings and structures; assembly and disassembly of valves and equipment of water supply systems; assembly and disassembly isolation valves and equipment of heating networks; the device of external electric networks and communication lines; commissioning works; work on the organization of construction, reconstruction and overhaul that affect the security of capital construction.

Date of issue of licence or access to particular types of works **06.08.2015**

Expiry date of licence or access to particular types of works: **Perpetual**

Name of the body issued the license: **Self-Regulating Organization NP “Energoproject”**

Number of licence or document evidencing the access to particular types of activities: **P-0263-01-2010-0274**

Type (types) of activity for performance of which the issuer obtained a licence or and access: access to works on preparation of design of external supply lines up to 35kV and their constructions that affect the safety of capital facilities

Date of issue of licence or access to particular types of works **17.08.2015**

Expiry date of licence or access to particular types of works :

Perpetual

Name of the body issued the license: **The Federal Security Service of the Russian Federation in Krasnodar region**

Number of licence or document evidencing the access to particular types of activities: **GT 0083528, registration number 1504**

Type (types) of activity for performance of which the issuer obtained a licence or and access: **activities that involve usage of information constituting state secret**

Date of issue of licence or access to particular types of works **20.07.2015**

Expiry date of licence or access to particular types of works: **06.08.2018**

The Issuer’s management takes all the actions required for timely obtainment, actualization and prolongation of licenses and minimization of the probability of the suspension, change or withdrawal. In this connection, the forecast of licenses prolongation probability is favourable.

At the same time, there is a risk related to changes in the legislation or with decisions of federal or regional bodies on licensing issues that is beyond the Issuer's control. Thus, the Issuer cannot guarantee that no future changes will take place that may have negative effect on one’s activity. However, presently the Issuer’s activity reveals no prerequisites of legal, economic or political character related to complication of the procedure or reduction of the licenses prolongation possibility.

3.2.6. Additional requirements to issuers being joint stock investment funds, insurance or lending institutions, mortgage agents

Issuer is not joint stock investment fund, insurance or credit company, mortgage agency.

3.2.7. Additional requirements to issuers which main activity is the extraction of minerals

Mining is not the core activities of the issuer

3.2.8. Additional requirements to issuers which main activity is the provision of telecommunications services

Provision of telecommunications services is not the core activities of the issuer

3.3. Issuer's future activity plans

Issuer's plans related to arrangement of new production capacity: Arrangement of new production capacity is not planned.

Issuer's plans related to extension and reduction of production capacity.

Development of the electric power grid sector of the Company is carried out in accordance with the approved scheme of prospective development of electric power grids and requirements of the technical specification for organization of technological connection of consumers to the Company's electric power grids.

It is planned to conclude over 30 thousand contracts for technological connection to the electric power grids with total capacity = 660 MW in 2016, the amount of cash fees (payment for technological connection) is projected to be 2 327 million rubles (excluding VAT).

It is expected that in 2012, due to the growth of power consumption in the region and the connecting of new customers, the amount of electricity transmission services rendered by the Company amount to 18 917 084 thousand kWh. (108% compared to 2015).

Issuer's plans related to development of new types of products:

Development of new types of products is not planned.

Issuer's plans related to modernization and reconstruction of fixed assets:

During the few coming years, "Kubanenergo" PJSC has scheduled construction and reconstruction of overhead lines, substations and other energy facilities, primarily – those oriented at provision for uninterrupted electric power supply of the Krasnodar Territory seaside areas (along the Black Sea and Azov Sea coasts), Krasnodar as a social and cultural centre and implementation of project of national standing on Taman peninsula: "Construction of Kerch strait bridge", "Construction of dry-cargo zone of Taman seaport".

Plans of issuer's investment activity:

Kubanenergo PJSC carried out its investment activity in accordance with the approved by the BoD Investment programme for 2016-2020. The Investment programme was also approved by the Ministry of Energy of the Russian Federation (order No.1033 dated 25.12.2015).

Sources of funding the investment programme 2016:

- depreciation – 2 056.17 million rubles;
- VAT recovery – 167.80 mln. rubles,
- other internal funds – 44.82 mln. rubles,
- credit funds – 1 525.42 mln. rubles,
- advances on technological connection – 850.15 mln. rubles.

Implementation of investment programme includes the construction and reconstruction of 136.14 km of power lines and putting into operation the transformer capacity in amount of 172.80 MW.

Plans of the issuer related to possible changes in operating activities: the changing of operating activity is not planned.

Future prospects in terms of sources of future income:

Main elements of Company's financial strategy:

- provision of qualitative, reliable and stable power supply;
- reduction of power equipment tear and wear;
- keeping of tariff sources of investment for the renewal and development of the network;
- improving the efficiency of operating costs;
- making of a reserve capacity of power grids in the volume advancing economic development for 3 years;

- introduction of innovative technologies that meet the highest international standards in the field of power distribution at all stages of the process;
- ensuring of the profitability of investments in the distribution grid complex at the level of profitability of companies with comparable market conditions in the Russian Federation

3.4. Issuer's participation in industrial, banking and financial groups, holdings, groups of companies and associations

Name of the group, holding, corporate group or association: **“Rosseti” PJSC**

Term of issuer’s participation: **since July 1, 2008**

Role (place) and functions of the issuer in organization:

Since July 1, 2008 the issuer was a dependent and then later affiliated company of “Rosseti” PJSC that received the portfolio of voting shares of the Company by the law of succession on dividing balance sheet in the results of reorganization of RAO “UES of Russia” JSC. Functions of the issuer in the Holding: formation of power sector of Russia in the sphere of distribution grid complex.

3.5. Subsidiary and dependent companies of the Issuer

The issuer does not have subsidiary and dependent companies of material significance

3.6. Composition, structure and value of the Issuer's fixed assets, information on plans for acquisition, replacement and retirement of fixed assets as well as all facts of encumbrance on the Issuer’s fixed assets

31.12.2015

Unit: thousand rub

Group of fixed assets	Acquisition cost (replacement cost)	Accumulated Depreciation
Fixed assets	98 908 400	48 311 872
Total	98 908 400	48 311 872

Information on depreciation calculation method for groups of fixed assets:

Depreciation on fixed assets objects is charged in linear mode based on the terms of useful service of these objects

Reporting date: 31.03.2016

Results of last revaluation of fixed assets and leased assets, carried out during the last completed financial year, with the date of the revaluation, gross and net (net of depreciation) of the book value of fixed assets before revaluation and gross and net (net of amortization) of the replacement cost fixed assets to reflect current revaluation. The above information is provided for groups of fixed assets. The data are provided on methods of accrual of depreciation charges on groups of fixed assets.

Unit: thousand rub

Group of fixed assets	Total cost before revaluation	Net asset value (excluding amortization) before revaluation	Revaluation date	Full replacement cost after revaluation	Depreciated replacement cost (excluding amortization) after revaluation
Homogeneous groups of fixed assets (group 110, 420)	43 563 850	14 951 010	31.12.2015	47 548 686	16 175 206
Total	43 563 850	14 951 010		47 548 686	16 175 206

Method of revaluation of fixed assets (according to coefficient of federal executive body for statistics, market cost of fixed assets, supported by documents and experts' reviews. In case of presence of experts' review it is necessary to specify the method of evaluation):

Revaluation of fixed assets as of 31.12.2015 was carried out for the groups of fixed assets (code 110 "Industrial buildings", code 420 "Equipment for the conversion of electric power") by "ENPI Consult" JSC in accordance with the agreement No.2e392/15/407/30-933 dated 01.09.2015. The final results of the revaluation of homogeneous groups of fixed assets (code 110 "Industrial buildings", code 420 "Equipment for the conversion of electric power") not reflected in the financial statements for 2015 in accordance with legislation. While evaluating "ENPI Consult" JSC used basis-index methods of estimating the current (replacement) costs by indexation of initial cost.

Information on plans for the acquisition, replacement, retirement of fixed assets, the value of which is 10 or more percent from the total assets value, and other fixed assets at the discretion of the issuer, as well as all facts of encumbrance of the issuer (indicating the type of burden, the date of encumbrance, its validity and other conditions at the issuer's discretion):

The approved investments programme 2016 does not include modernization of facilities, cost of modernization of which is more than 10% of issuer's fixed assets

Property of "Kubanenergo" PJSC encumbered by leases as of 30.03.2016:

IV. Information on issuer's business activity

4.1. Results of business activity

Dynamics of indicators showing the issuer's business activity, including its profitability and loss

Standard (rules) applied for making the accounting report: RAS

Unit of measurement for the sum of uncovered loss: thousand rubles

Indicator	2014	2015
-----------	------	------

Net Profit, %	-12.36	4.07
Asset turnover ratio, times	0.48	0.56
Profitability of assets, %	-5.89	2.26
Profitability of internal capital, %	-12.26	4.49
Sum of non-covered loss as of reporting date	14 879 177	13 378 700
Ratio of non-covered loss as of reporting date and balance currency	24.11	20.8

Indicator	3 months of 2015	3 months of 2016
Net Profit, %	-3.22	3.6
Asset turnover ratio, times	0.13	0.16
Profitability of assets, %	-0.41	0.59
Profitability of internal capital, %	-0.87	1.16
Sum of non-covered loss as of reporting date	15 130 582	12 999 646
Ratio of non-covered loss as of reporting date and balance currency	24.49	20.34

All indicators are calculated on the basis of recommended methods of accounting

Economic analysis of the liquidity and solvency of the issuer, the issuer's capital adequacy for fulfillment of the short-term liabilities and to cover current operating expenses based on the economic analysis of the specified parameters describing the factors which, in the opinion of the issuer, had the most significant effect on the liquidity and solvency of the issuer:

At the end of 2015 the Company made a profit from financial activities in the amount of 1 452.5 million rubles, due to an increase in revenue by 6 310.8 million rubles or 21.5%.

Profitability and return on equity ratio by the results of the 1st quarter 2016 is positive due to the presence of net profit for the reporting period. Return on equity increased in the 1st quarter of 2016 by 2.0 points and amounted to 1.16%. Significant impact on the increase in this indicator in the reporting period was the increase in shareholders' equity of the Company.

Opinions of the issuer's management bodies on the causes or their effects on the financial and economic activities are not the same: **None**

Member of the Board of Directors (Supervisory Board) of the Issuer, or a member of the collegial executive body that has a special opinion on the reasons and/or their impact on the financial performance of the issuer, as reflected in the minutes of the meeting (session) of the Board of Directors (Supervisory Board) of the Issuer or the collective executive body, which considered the relevant issues, and insists on such a view in the quarterly report: **None**

4.2. Liquidity of the Issuer, sufficiency of equity and current assets

Dynamics of indicators showing the issuer's liquidity

Standard (rules) applied for making the accounting report: RAS

Unit of measurement for the sum of net fixed assets index: thousand rubles

Indicator	2014	2015
Net fixed assets index	-3 007 853	-11 808 361
Current liquidity ratio	0.81	0.45
Quick liquidity ratio	0.72	0.38

Indicator	3 months of 2015	3 months of 2016
Net fixed assets index	-3 896 969	-11 247 056
Current liquidity ratio	0.77	0.45
Quick liquidity ratio	0.68	0.38

By issuers decision the dynamics if indicators characterizing issuer's liquidity is additionally disclosed, the indicators are compiled on the basis of data of consolidated accounting report which is included in the quarterly report: **no**

All indicators are calculated on the basis of recommended methods of accounting: **yes**

Economic analysis of the liquidity and solvency of the issuer, the issuer's capital adequacy for fulfillment of the short-term liabilities and to cover current operating expenses based on the economic analysis of the specified parameters describing the factors which, in the opinion of the issuer, had the most significant effect on the liquidity and solvency of the issuer:

2015

The indicator "Net working capital" has decreased by the results of 2015 in comparison to 2014 and amounts "minus" 11 247.1 million rubles.

The optimum amount of net working capital (net working assets) is determined in accordance with the individual needs of each company and depends on the size and characteristics of its activities, the turnover period of inventories, receivables, and on the conditions of borrowings and loans, etc.

The current liquidity ratio allows to determine how many times current assets cover short-term liabilities. The current ratio decreased in comparison to the same period of 2014 by 0.36 points and made up 0.45.

The quick ratio shows how much the most liquid assets cover current liabilities of the organization.

At the end of 2015 the quick ratio decreased by 0.34 points compared to 2014 and totaled 0.38.

The main reason for these changes is reduction in the level of funds, as well as an increase in short-term borrowings due to the transfer of the long-term to short-term portion of loans with maturities of less than 12 months.

1st quarter of 2016:

The indicator "Net working capital" has decreased by the results of the 1st quarter of 2016 in comparison to 2015 by 7 350.1 million rubles and amounts "minus" 11 247.1 million rubles. The optimum amount of net working capital (net working assets) is determined in accordance with the individual needs of each company and depends on the size and characteristics of its activities, the turnover period of inventories, receivables, and on the conditions of borrowings and loans, etc.

The current liquidity ratio allows to determine how many times current assets cover short-term liabilities. The current ratio decreased in comparison to the same period of 2015 by 0.32 points and made up 0.45.

The quick ratio shows how much the most liquid assets cover current liabilities of the organization.

By the results of the 1st quarter of 2016 the quick ratio has decreased by 0.3 points compared to 2015 and totaled 0.38.

The main reason for these changes is reduction in the level of funds, as well as an increase in short-term borrowings due to the transfer of the long-term to short-term portion of loans with maturities of less than 12 months.

Opinions of the issuer's management bodies on the causes or their effects on the financial and economic activities are not the same: None

Member of the Board of Directors (Supervisory Board) of the Issuer, or a member of the collegial executive body that has a special opinion on the reasons and/or their impact on the financial performance of the issuer, as reflected in the minutes of the meeting (session) of the Board of Directors (Supervisory Board) of the Issuer or the collective executive body, which considered the relevant issues, and insists on such a view in the quarterly report: None

4.3. Financial investments of the Issuer

Total book value of the securities owned by the Issuer, RUR: **45 588.4**

Unit of measurement: **thousand rubles**

The Issuer of securities is subsidiary and (or) affiliate Company in relation to the Issuer that drew up this quarterly report

By results of 2015 no dividends were declared or paid.

The size of the fixed interest or other income on bonds and other promissory equity securities or the procedure for determining the payment deadline;

the amount of dividend on preferred shares or the procedure for determining when it is defined in the charter of the joint stock company - issuer, term of payment;

the size of declared dividend on ordinary shares (in the absence of data on the size of declared dividend on ordinary shares in the current year, the amount of dividends declared in the previous year), term of payment

Additional information: no

Investments in non-emission securities

The issuer made a reserve for possible losses from investments in securities

The quantity of provision for impairment of securities at the beginning and end of the last completed fiscal year before the expiry date of the last reporting quarter:

In accordance with the Russian Accounting Standard (RAS) "Accounting of investments" RAS19/02 approved by the Ministry of Finance of the Russian Federation on 10.12.2002 No. 126n (hereinafter - RAS 19/02), Regulation on the accounting policy of Kubanenergo JSC in 2013 approved by Company's order on 29.12.2012 No. 1165, "Kubanenergo" carried out a check for impairment of financial investments as of 31 December 2014 and as of December 31, 2015 amounted 17 336 thousand rubles.

Other financial investments

There are no other financial investments that make up more than 5 percent of all investments.

Information about the magnitude of potential losses associated with the bankruptcy of organizations (enterprises), in which investments were made, for each type of investment: **no**

Information about losses is provided in the evaluation of the issuer's financial investments, as reflected in the issuer's financial statements for the period from the beginning of the year to the end of the last reporting quarter.

Standards (rules) of accounting reports, under which the issuer made the calculations reflected in this paragraph of quarterly report:

“Financial reports of the organization”, approved by order of Ministry of Finance of Russian Federation, RAS 19/02, “Accounting of investments”, approved by order of the Ministry of Finance of Russian Federation dated 10.12.2002 No. 126n.

Contributions to the charter capital of other organizations are recognized as financial investments of the organization and are accounted at sum of actual costs of investor, i.e. at the value of contributed assets on which they are recorded in the balance sheet of the investor.

Financial investments, on which the current market value is not determined, are to be reflected in the accounting records and financial statements at the balance sheet at initial cost (paragraph 21 of Regulation on Accounting 19/02).

Financial investments, which make possible to determine the current market value are recognized in the financial statements at the end of the year at the current market value by adjusting their estimates for the previous reporting date (paragraph 20 PBU 19/02).

Debt securities are accounted at the cost of purchase. The difference between the acquisition cost and the nominal value of the securities should be included in other income and expenses.

the amount of dividend on preferred shares or the procedure for determining when it is defined in the charter of the joint stock company - issuer, term of payment;

the size of declared dividend on ordinary shares (in the absence of data on the size of declared dividend on ordinary shares in the current year, the amount of dividends declared in the previous year), term of payment

Additional information: no

Type of securities: **shares**

The full name of the Issuer: **"Recreation centre "Energetik", JSC**

Abbreviated name of the Issuer: **"R/c "Energetik"**

Address of the Issuer: **4, Pionerskaya street, village Divnomorskoe, Gelendzhik, Krasnodar region, 353490**

TIN: **2304041820**

PSRN: **1042301876495**

Date of state registration of the issue (issues)	Registration number	Registering Authority
21.12.2004	1-01-34134-E	Direction of the Russian Federal Securities Commission for the Southern Federal District

Number of securities owned by the Issuer: **39 845 257**

Total face value of the securities owned by the Issuer: **39845257 RUR x 1**

Total book value of the securities owned by the Issuer, RUR: **45 588.4**

Unit of measurement: **thousand rubles**

The Issuer of securities is subsidiary and (or) affiliate Company in relation to the Issuer that drew up this quarterly report

By results of 2015 and 3 months of 2016 no dividends were declared or paid.

The size of the fixed interest or other income on bonds and other promissory equity securities or the procedure for determining the payment deadline;

the amount of dividend on preferred shares or the procedure for determining when it is defined in the charter of the joint stock company - issuer, term of payment;

the size of declared dividend on ordinary shares (in the absence of data on the size of declared dividend on ordinary shares in the current year, the amount of dividends declared in the previous

year), term of payment

Additional information: no

Investments in non-emission securities

The issuer made a reserve for possible losses from investments in securities

The quantity of provision for impairment of securities at the beginning and end of the last completed fiscal year before the expiry date of the last reporting quarter:

In accordance with the Russian Accounting Standard (RAS) “Accounting of investments” RAS19/02 approved by the Ministry of Finance of the Russian Federation on 10.12.2002 No. 126n (hereinafter - RAS 19/02), Regulation on the accounting policy of Kubanenergo JSC in 2013 approved by Company’s order on 29.12.2012 No. 1165, “Kubanenergo” carried out a check for impairment of financial investments as of 31 December 2015 and as of 31 March 2016 amounted 17 336 thousand rubles.

Other financial investments

There are no other financial investments that make up more than 5 percent of all investments.

Information about the magnitude of potential losses associated with the bankruptcy of organizations (enterprises), in which investments were made, for each type of investment: **no**

Information about losses is provided in the evaluation of the issuer's financial investments, as reflected in the issuer's financial statements for the period from the beginning of the year to the end of the last reporting quarter.

Standards (rules) of accounting reports, under which the issuer made the calculations reflected in this paragraph of quarterly report:

“Financial reports of the organization”, approved by order of Ministry of Finance of Russian Federation, RAS 19/02, “Accounting of investments”, approved by order of the Ministry of Finance of Russian Federation dated 10.12.2002 No. 126n.

Contributions to the charter capital of other organizations are recognized as financial investments of the organization and are accounted at sum of actual costs of investor, i.e. at the value of contributed assets on which they are recorded in the balance sheet of the investor.

Financial investments, on which the current market value is not determined, are to be reflected in the accounting records and financial statements at the balance sheet at initial cost (paragraph 21 of Regulation on Accounting 19/02).

Financial investments, which make possible to determine the current market value are recognized in the financial statements at the end of the year at the current market value by adjusting their estimates for the previous reporting date (paragraph 20 PBU 19/02).

Debt securities are accounted at the cost of purchase. The difference between the acquisition cost and the nominal value of the securities should be included in other income and expenses.

4.4. Intangible assets

31.12.2015

Unit: **thousand rubles.**

Intangible assets	Initial (replacement) cost	Depreciation
Intangible assets	36 388	23 155

-------	--------	--------

Standards (rules) of accounting, under which the issuer provides information on its intangible assets:

Accounting of intangible assets in accordance with the Order of Ministry of Finance of Russian Federation dated 27.12.2007 No. 153n “About approval of accounting “Accounting of Intangible Assets” (RAS 14/2007).”

Reporting date: **31.12.2015**

31.03.2016

Unit: **thousand rubles.**

Intangible assets	Initial (replacement) cost	Depreciation
Intangible assets	36 388	24 342
TOTAL	36 388	24 342

Standards (rules) of accounting, under which the issuer provides information on its intangible assets:

Accounting of intangible assets in accordance with the Order of Ministry of Finance of Russian Federation dated 27.12.2007 No. 153n “About approval of accounting “Accounting of Intangible Assets” (RAS 14/2007).”

Reporting date: **31.03.2016**

4.5. Details of the Issuer’s policy and expenses in the field of scientific and technical development, with regard to licenses and patents, new researches and developments

Information on the Issuer's policy in the field of scientific and technical development for the reporting period including disclosure of costs in connection with scientific and technical activity carried out at the expense of the Issuer’s proprietary assets:

The Company’s policy in the field of scientific and technical development is aimed at increase of reliability of energy equipment operation, cost-effectiveness and environmental safety of the Company’s core energy facilities activity.

The Innovative Development Program of Kubanenergo PJSC was approved by the Board of Directors of Kubanenergo on 29.07.2011 (as amended on 15.06.2012).

The Company's research and development plan for 2015 contains 3 projects and 5 projects are planned for 2016.

In the 1st quarter of 2015 the company paid the state duty for the maintenance of the patent of the Russian Federation for useful model for the third year in the amount of 850 rubles. Intermediate materials on one stage of R&D works submitted for consideration and adoption were adopted in the 3rd quarter. 5 015.9 thousand rubles including VAT were paid 29.09.2015. In the 4th quarter of 2015 work-in-progress on one stage of design and development work was accepted; on 18.12.2015 payment in the amount of 785.1 thousand rubles (VAT included) was made. In the 1st quarter of 2016 the state duty was paid for the maintenance of the Russian patent for utility model for the fourth year in the amount of 850 rubles.

Implementation of R&D “Development of standard technical documents “Standard of Company. Implementation of requirements of technical policy. System of standard units of the companies of electric networks of territorial grid companies, instruments of technical and dispatcher

management and exception of unreasonable financial expenses on the recommendation of “Rosseti” PJSC was terminated in February of 2015.

Information on the creation and acquisition by the Issuer of legal protection of intellectual property rights (including the date of issue and the duration of patents for invention, utility model or industrial design, the state registration of trademarks and service marks, appellations of origin):

On 19.02.2015 as a result of the R&D project the company obtained a certificate of state registration of the computer software programme “Program of processing and submission of data on equipment monitoring, that is formed by a system for control of the insulation of power transformers (TSE SKI)” No.2015612526.

The main directions and results of use of main for the issuer intellectual property objects:

In the reporting period the Company adopted the balance of the following intangible assets:

It was offered to use the following results of R&D projects received earlier:

- UV system diagnostics of insulation at Substation and overhead lines 35-110 kV - detection system on electrical insulation of crown discharge and electric arc in daylight at Substation and overhead lines 35-110 kV, allows to define status of the equipment, to identify the malfunction of a component and the possibility of failure, exact location of the source of the crown and specify necessity of equipment repair. This reduces time of detecting the defecting part and elimination of such defect.

- The scheme of perspective development of electric networks of 35 kV and above of “Kubanenergo” PJSC for the period 2012-2017 with prospect of up 2022. In the result of the activities schemes of the electric grids were determined and perspective directions of grids 35-110 kV development were explained with regard of strategical directions of economics development of Krasnodar region and Adygea Republic, determined amount of construction projects, modernization of electric grid facilities.

- Microprocessor adaptive fine protection of near and remote redundancy of transformers of tap-off and intermediate substations. The specified protection provides a high sensitivity to short circuits for transformers by detecting emergency operation against the background of a comparable level of current load, start-up (self-starting) of electric motors, the influence of transition resistance of the electric arc.

Risk factors associated with the possible expiry of the basic patents, licenses for the use of trademarks:

There are no risks associated with the expiration of the patents and licenses for the use of trademarks in the Issuer.

4.6. Analysis of development trends in the sphere of Issuer's core activity

Implementation of investment programs elaborated by “Kubanenergo” JSC and providing for development, technical re-equipment and reconstruction of the electric power grid sector of the Company should provide reliable electric power supply to existing and future electric energy consumers in the next few years.

Positive factors and conditions affecting the Issuer’s activity include, in particular:

- Growth of energy consumption in the region
- Increase of payment discipline of energy selling companies
- Growth of capacities commissioned
- Power redistribution among consumers according to their needs (actual consumption).

Negative factors and conditions affecting the Issuer’s activity include, in particular:

- ageing of the Issuer's core equipment
- reduction of rate of uniform “boiler” tariffs for electricity transmission services
- inconsistency decisions taken in the sphere of establishment of electric energy transmission tariffs to the extent of the investment component inclusion
- necessity to provide meter reading because of the absence of automated system of remote control and accounting of electric energy
- increase in losses of active energy consumed for heating of wires due to the lack of compensation of reactive power.

General evaluation of the results of Issuer's activity in this particular sector; correspondence of the results of the Issuer's activity to the trends in the sector development; reasons justifying the obtained results of the activity (satisfactory and unsatisfactory results, in the Issuer's opinion):

The main result of the Issuer's activity in power industry consists in provision of reliable and uninterrupted power supply of consumers, consistent implementation of investment projects on construction and reconstruction of overhead lines, substations and power industry facilities, primarily oriented at provision for uninterrupted power supply of the of the Krasnodar Territory seaside areas (along the Black and Azov Seas coasts), especially Sochi district, Krasnodar as a social and cultural centre, as well as implementation of projects on Taman peninsula: “Construction of transport passage through the Kerch Strait”, “Project on construction of dry cargo district in Taman port”. Successful resolution of tasks set to the Company within the framework of the industry reform by efforts of “Kubanenergo” PJSC management contributes to it.

4.7. Analysis of factors and conditions affecting the Issuer's activity

The impact of inflation, changes in exchange rates, government decisions, economic, financial, political and other factors affecting the business activity of the issuer and which influenced the amount of revenue from sale of goods, products, services and income (loss) from core business.

Among the factors and conditions that directly influence the Issuer's activity is the economic stability of the region.

In the current macroeconomic conditions the core activity of the issuer is influenced by inflation, as well as increasing interest on loans by the creditor banks. In addition, the growth of productive supply and electricity transmission revenue due to the increase of energy consumption, including through the development of infrastructure of the Krasnodar region and the Republic of Adygea in 2015.

Prices (tariffs) for Company's services on energy transmission and grid connection are subject to tariff regulation, along with it, due to introduction of restriction to tariff growth, there is a risk that the Regional Energy Commission of the Krasnodar region approves tariffs that do not fully consider expenses of Kubanenergo PJSC.

Undeveloped networks in some districts of the Krasnodar region and the Republic of Adygea together with ever growing demand have led to overloading of power lines and transformers.

Reliability of power supply is reduced because of aged equipment, which means extra expenditures for keeping the equipment going.

In the part of power transmission services, the Issuer's activity is influenced by:

- due to the fact that calculation of technological losses is performed based on regular network scheme, all changes in its parameters and configurations influence the amount of energy losses (in order to prevent accidents in networks it is necessary to redistribute the loads). Such forced redistribution of loads and changes in operating network scheme lead to increase of actual technological losses both at the expense of losses in power transformers and losses of electric energy that occur because of transfer of extra reactive power from inoperative power transformers and increased load;

- shortage of record-keeping equipment makes impossible to analyze in due time the load on networks.

Measures taken by the issuer to efficiently use these factors and conditions:

The Company pays great attention to development of power grid facilities using scientifically grounded technical solutions and technologies tested during the operation of, modern equipment. In order to meet consumers' demand for more capacity, a reliable and uninterrupted electricity supply, the Company invested considerable funds for the reconstruction of electrical networks and the creation of new connection points.

The Company continuously interacts with the Department in order to establish reasonable tariffs. In order to increase efficiency and improve the financial and economic condition of "Kubanenergo" PJSC and to ensure financial stability and achieve sustainable positive financial result of activity, "Kubanenergo" PJSC developed a plan to increase efficiency and improve the financial and economic condition of "Kubanenergo" PJSC.

The list of internal and external measures, taken to increase the efficiency of business processes in both "Kubanenergo" PJSC and the group of companies "Rosseti" PJSC in general, has been defined taking into account the prevailing macroeconomic conditions.

Methods used by the issuer and methods the issuer plans to use in the future to reduce the negative effect of factors and conditions influencing the issuer's activity:

Implementation of developed by Kubanenergo investment programmes that include the development, modernization and reconstruction of electric grid facilities of the Company. This should improve the state of power supply to consumers of electricity in the coming years.

Development of power grid facilities of the Company in accordance with the approved scheme of perspective development of electric networks and the technical requirements in the organization of technological connection of consumers to electric grids of the Company.

In addition, the issuer shall apply the following methods:

- implementation of measures aimed to improve the payment discipline and reduce the accounts receivable for electricity transmission services, including the elaboration of mechanisms of consolidation of transmission assets;

- optimization of the investment costs;

- providing cost savings through effective use of material resources, increase productivity, optimization of the organizational structure of the company (without loss of qualified personnel);

- imposition of limitations on power consumption in case of debts in payments for the electricity from the customers;

- carrying out work on the consolidation of property owned by territorial grid companies that do not meet the criteria of referring the owners to territorial grid companies, approved by the order of the RF Government No.184 dated 28.02.2015 "On attribution of owners of grid facilities to territorial grid companies".

Significant events/factors that may have the most negative impact on the possibility gaining by the Issuer in the future the same or better results as compared to the results obtained for the last reporting period, as well as the likelihood of such events (factors):

There are risks to ensure the reliability of electricity supply to consumers and a threat to stable operation of the power system due to overload power lines and transformers (autotransformers) in normal and post-fault conditions.

The situation is worsened by the continued aging of the power equipment. The number of equipment, buildings and structures that are worn out and need replacement, reconstruction or modernization is continually increasing.

Significant events/factors that may improve the performance of the issuer, and the probability of their occurrence and their duration:

- the growth of energy consumption in the regions of the Company's presence,
- implementation of the investment programme, which allows to increase operational efficiency,
- the solution of public authorities in setting tariffs for electricity transmission and to ensure non-discriminatory access of consumers to power grids,
- decrease in interest charged by banks on credit contracts due to changes in financial market conditions,
- reduction of operational costs of controlled will allow the Company to reduce the cost of servicing the unit of electrical equipment in 2017 by 15.0% compared to 2012, as well as reduction of operational expenses by at least 3% comparison to the previous year.

The Issuer sent a claim to the Federal Antimonopoly Service and the Federal Tariff Service of Russia (letter No. КЭ/1200/431 dd. 02.09.2015) on consideration of dispute with Regional energy Commission – Department of prices and tariffs of Krasnodar region on amount of expenses of “Kubanenergo” PJSC on purchasing of electric energy for compensation of losses, taking into account when establishing unified (boiler) tariffs on electric energy transmission services in 2015 to provide the including of economically feasible expenses in necessary gross revenue to compensate losses in 2015. FAS Russia made a decision on 18.02.2016 ТщюSP/9795/16 on partial satisfaction of the requirements of the PJSC "Kubanenergo" of the pre-trial examination of a dispute relating to the establishment and (or) application of prices (tariffs) in the regulation of tariffs for natural monopolies, with the Regional energy Commission – Department of prices and tariffs of Krasnodar region.

Implementation of developed by Kubanenergo investment programmes that ensure the development, modernization and reconstruction of electric grid facilities of the Company, will provide reliable power supply of existing and prospective consumers of electricity in the coming years.

The likelihood of such factors is estimated by the Company as considerable. To anticipate the duration of these events is not possible due to the uncertainty of the economic situation development in Russia and in the whole world.

4.8. Issuer's Competitors

“Kubanenergo” PJSC carries out one's activity in conditions of natural monopoly, performing electric energy transmission to consumers connected to the grids of interfacing grid organizations. The risk of occurrence of competition for “Kubanenergo” PJSC is possible only in case if “FGC UES” PJSC signs independent contracts for provision of electric energy transmission services with consumers territorially located within the responsibility zone of “Kubanenergo” JSC, their power receiver devices connected to “FGC UES” PJSC grids.

V. Details on persons that are members of the Issuer's management bodies, the Issuer's bodies in charge of control of financial and business activity and brief details on the Issuer's employees (workers)

5.1. Details of the structure and competence of the Management Bodies of the Issuer

Full description of the structure of Management Bodies of the Issuer and their competences in accordance with the Issuer's Charter (constituent documents):

In accordance with “Kubanenergo” PJSC Charter, the management bodies of the Company are:

- General Meeting of Shareholders;
- Board of Directors;
- Management Board (Collegial Executive Body of the Company);
- General Director (Sole Executive Body of the Company).

The General Meeting of Shareholders is the Supreme Management Body of the Company.

General management of the Company's activity is carried out by the Board of Directors.

General Director and the Management Board of the Company carry out management of current activity of the Company.

Issues referred by the Company Charter to the competence of the General Meeting of Shareholders of the Issuer:

In accordance with "Kubanenergo" PJSC Charter, the following issues are referred to the competence of the General Meeting of Shareholders:

1) Introduction of alterations and amendments to the Charter or approval of a new version of the Charter;

2) Reorganization of the Company;

3) Liquidation of the Company, appointment of liquidation commission and approval of intermediate and final liquidation balances;

4) Definition of number, nominal value, category (type) of declared shares and rights, vested in such shares;

5) Increase of charter capital of the Company through increase of nominal value of shares or placement of additional shares;

6) Reduction of charter capital of the Company through reduction of nominal value of shares, acquisition of a part of shares by the Company with the purpose of reducing of their total number and through redemption of shares acquired or bought out by the Company;

7) Splitting and consolidation of the Company shares;

8) Making decision on placement of the Company bonds convertible into shares and other issued securities convertible into shares;

9) Determination of the number of members of the Board of Directors of the Company, election of its members and early termination of their powers;

10) Election of members of the Auditing Commission of the Company and early termination of their powers;

11) Approval of external Auditor of the Company;

12) Approval of resolution on transfer of the power of the sole executive body of the Company to a management organization (manager) and on early termination of their powers;

13) Approval of annual reports, annual accounting statements, including profit and loss statements (profit and loss accounts) of the Company, and distribution of profit including payment (declaration) of dividends, except for the profit distributed in the form of dividends by the results of the first quarter, half-year, nine months of fiscal year, and losses of the Company by the results of fiscal year;

13.1) payment (declaration) of dividends by the results of the first quarter, half-year, nine months of fiscal year;

14) Determination of the proceedings of the General Meeting of the Company's Shareholders;

15) Making decision on approval of transactions in the cases stipulated by Article 83 of the Federal Law "On Joint Stock Companies";

16) Making decision on approval of major transactions in the cases stipulated by Article 79 of the Federal Law "On Joint Stock Companies";

- 17) Approval of resolution on participation in financial and industrial groups, associations and other unions of commercial organizations;
- 18) Approval of internal documents regulating the activity of the Company's bodies;
- 19) Making decision on payment of remuneration and (or) compensations to the members of Auditing Commission;
- 20) Making decision on payment of remuneration and (or) compensations to the members of the Board of Directors;
- 21) decisions on filing an application on delisting Company's shares or securities convertible to shares
- 22) Making decision on other matters, stipulated by the Federal Law "On Joint Stock Companies".

Issues referred by the Company Charter to the competence of the Board of Directors of the Issuer:

The following issues fall within the competence of the Board of Directors:

- 1) Determination of the priority domains of the Company activities;
- 2) Convening of the annual and extraordinary General Meetings of the Company Shareholders, with exception of the cases specified in Clause 14.8 of Article 14 hereof and declaration of the new General Meeting date to be held instead of a failed one due to absence of quorum;
- 3) Approval of the agenda of the General Meeting of the Company's Shareholders;
- 4) Election of the secretary of the General Meeting of the Company's Shareholders;
- 5) Determination of the date of record of the list of persons entitled to attend the General Meeting of the Company's Shareholders, fixing up the date of making the list of persons entitled to receive dividends, approving of costs estimated on holding general meeting and making decisions on other issues related to preparation and holding of the General Meeting of the Company's Shareholders;;
- 6) The decisions on issues specified in sub-items 2, 5, 7, 8, 12–20 of Clause 10.2 of Article 10 hereof, as well as reduction of charter capital of the Company, on fixing up the date of making the list of persons entitled to receive the dividends can be made by AGM only at the suggestion of the Board of Directors of the Company.
- 7) placement of additional shares, into which preferred shares placed by the Company of a certain type are converted, convertible into common shares or preferred shares of other types, if such a placement is not associated with an increase in the authorized capital of the Company, as well as placement of bonds or other equity securities other than shares; Eurobond issue and determining policy in the sphere of the issue of securities (except for shares) and Eurobonds;
- 8) Approval of resolution on issue (additional issue) of securities, securities issue prospect, and report on the results of the securities issue (additional issue), and notification on results of issue (additional issue) of securities, approval of reports on the results of acquisition of shares from the Company shareholders, reports on share redemption results, reports on the claims of the Company shareholders for repurchase of shares held by them;
- 9) Determination of the property price (pecuniary valuation), price of placement or procedure of fixing the price and redemption of issued securities in the cases stipulated by the Federal Law "On Joint Stock Companies" and upon making decisions on the issues specified in Items 11, 21, 38 of Clause 15.1 hereof;
- 10) Acquisition of the shares, bonds and other securities placed by the Company in the cases

stipulated by the Federal Law “On Joint Stock Companies”;

11) Alienation (realization) of the Company shares occurring at the Company’s disposal as a result of their acquisition or repurchase from the shareholders of the Company and in other cases stipulated by the Federal Law “On Joint Stock Companies”;

12) Election of General Director of the Company and early termination of his powers, including resolution on early termination of the employment contract within him;

13) Determination of the number of members of the Management Board of the Company, election of members of the Management Board of the Company, fixing the remuneration and compensation to be paid to them, early termination of their powers;

14) Recommendations to the General Meeting of the Company’s Shareholders concerning the size of remuneration and compensations paid to the members of the Auditing Commission and determination of the amount of fee to be paid for the Company’s external Auditor’s services;

15) Recommendations on the size of dividends on shares and the procedure of their payment;

16) Approval of internal documents of the Company determining the procedure of formation and use of the Company funds;

17) Approval of resolutions on the use of the Company funds; approval of the estimates for the use of the special purpose funds and consideration of the results of implementation of estimates of the special purpose funds;

18) Approval of internal documents of the Company, with exception of the internal documents, the approval of which falls within the competence of the General Meeting of Shareholders, and other internal documents the approval whereof falls within the competence of executive bodies of the Company;

19) Approval of business plan (adjusted business plan) including the investment program and quarterly report on the progress of their implementation, approval (adjustment) of the list and values of cash flow benchmarks of the Company;

19.1) On consideration of investment program, including amendments to the same;

20) Establishing of branches and opening of representative offices of the Company, their liquidation;

20.1) Introduction of alterations the Company Charter related to establishing of branches, opening of representative offices of the Company (including alteration of details of the names and locations of the Company branches and representative offices) and their liquidation;

21) Approval of resolutions on the Company’s participation in other organization (joining an existing organization or establishment of a new organization, including approval of constituent documents) and on acquisition, alienation, and encumbrance of shares and shareholdings in the charter capital of the organizations in which the Company participates change of participatory interest in the charter capital of a corresponding organization and termination of the Company’s participation in other organizations;

22) Determination of credit policy of the Company as regards the Company’s granting loans, entering into credit agreements and loan agreements, issue of sureties, assuming liabilities on bills and notes (issue of promissory notes and bills of exchange), pledge of property, and passing resolutions on the Company’s participation in such transactions in the cases when the decision-making procedure in their respect has not been determined by the credit policy of the Company, and the approval of resolutions on bringing the Company’s debts in balance with the limits established by the credit policy of the Company in accordance with the procedure stipulated in the credit policy of the Company;

23) Approval of major transactions in the cases stipulated by chapter X of the Federal Law

“On Joint Stock Companies”;

24) Approval of transactions stipulated by chapter X of the Federal Law “On Joint Stock Companies”;

25) Approval of the Company’s Registrar, terms and conditions of an agreement with him, as well as termination of the agreement with him;

26) Election of the Chairman of the Board of Directors of the Company and early termination of his powers;

27) Election of the Deputy Chairman of the Board of Directors of the Company and early termination of his powers;

28) Election of Corporate Secretary of the Company and early termination of his powers;

29) Preliminary approval of resolutions on the Company’s making transactions connected with gratuitous transfer of the Company property and property rights (claims) as regards itself or a third party; transactions connected with release from property liability towards itself or a third party; transactions connected with free of charge rendering of services (performance of work) by the Company to third parties in the cases (within the scopes) determined by specific resolutions of the Board of Directors of the Company, and approval of resolutions on the Company’s making of such transactions in the cases when the above specified cases (scopes) are not determined;

30) Approval of organizational structure of the executive authority of the Company and alterations to the same;

31) Making decision on suspension of the powers of the managing company (manager);

32) Making decision on appointment of an acting General Director of the Company in the cases determined by specific resolutions of the Board of Directors of the Company, and his bringing to disciplinary responsibility;

33) Bringing the General Director of the Company and members of the Management Board of the Company to disciplinary responsibility, and their reward pursuant to the labor law of the Russian Federation;

34) Consideration of reports of the General Director on the Company’s activity (including the discharge of his duties), on implementation of the resolutions of the General Meeting of Shareholders and the Board of Directors of the Company;

35) Approval of the procedure of relations of the Company with the organizations, in which the Company is a participant;

36) Determination of the opinion of the Company (representatives of the Company) on the following issues of the agenda of the General Meetings of Shareholders (participants) and meetings of the boards of directors of affiliated and dependent companies), including the authorization to participate or not to participate in the voting on the agenda issues, voting on the draft resolutions in favor, against or abstained:

a) On determination of agenda of a general meeting of shareholders (participants) of affiliated and subsidiary companies (except those where the Company owns 100% of authorized capital);

c) On determination of the number of members in the supervisory and control bodies of affiliated and dependent companies, nomination, election of their members and early termination of their powers; nomination, election of sole executive body of affiliated and dependent companies and early termination of its powers;

d) On definition of number, nominal value, category (type) of declared by affiliated and dependent companies shares and rights, vested in such shares;

- e) On increase of charter capital of affiliated and dependent companies through increase of nominal value of the shares or through placement of additional shares;
- f) On placement of securities of affiliated and dependent companies convertible into ordinary shares;
- g) On splitting, consolidation of shares of affiliated and dependent companies;
- h) On approval of major transactions made by affiliated and dependent companies;
- i) On affiliated and dependent companies' participation in other organizations (on joining an existing organization or establishing of a new organization), and on acquisition, alienation or encumbrance of shares and interest in charter capitals of the organizations in which affiliated and dependent companies, change of participatory interest in the charter capital of a respective organization;
- j) On affiliated and dependent companies entering into transactions (including interrelated transactions) connected with acquisition, alienation or possible alienation of the property comprising the fixed assets, intangible assets, facilities under construction, the purpose of use whereof is generation, transmission, dispatching, distribution of electric and thermal energy in the cases (within the scopes) determined by the procedure of the Company's interaction with the organizations, in which the Company participates, to be approved by the Board of Directors of the Company;
- k) On introduction of alterations and amendments to the constituent documents of affiliated and dependent companies;
- l) Determination of the procedure of remuneration payment to the members of the Board of Directors and Auditing Commission of affiliated and dependent companies;
- m) On approval of business plan (adjusted business plan) including the investment program, and quarterly report on the progress of their implementation;
- n) On consideration of investment program, including amendments to the same;
- o) On approval of target values of key performance indicators (adjusted target values of key performance indicators);
- p) On approval of report on compliance with the planed values of annual and quarterly key performance indicators;
- q) On approval (consideration) of report on fulfilment of business plan;
- r) On approval of profit and loss distribution by the results of fiscal year;
- s) On recommendations as regards size of dividends on shares and their payment procedure;
- t) On payment (declaration) of dividends by the results of the first quarter, semiyear, nine months of fiscal year, and by results of the fiscal year;
- u) On approval (consideration) of report on the implementation of the investment program;
- v) on reduction of the authorized capital of subsidiaries and affiliates by reducing the nominal value of shares through the acquisition of subsidiaries and affiliates' shares in order to reduce their total number, as well as by redemption of repurchased shares of subsidiaries and affiliates

The members of the Audit Committee of the Board of Directors

Name	chairperson
Lavrova Marina Alexandrovna	yes
Khokholkova Kseniya Valerievna	no
Kislyakov Anton Mikhailovich	no

Information on the availability of a separate structural unit(s) for the risk management and internal control (other than the Audit Commission (Auditor), body (structural unit) in charge of internal control of financial and economic activities of the issuer), its tasks and functions:

Before April, 2008, functions of the Issuer's internal control service were discharged by the Controlling and Internal Audit Service established in August, 2004.

From April, 2008 till November, 30, 2010, under Contract No. 407/30-1143/26 “On transfer of powers of Sole Executive Body” between the Issuer and OJSC “IDGC of South” dated 14.09.2007, discharge of functions aimed at provision for efficient functioning of the internal control system in the Issuer was carried out by the Department for Internal Control and Audit of OJSC “IDGC of South”.

In accordance with Decision of the Board of Directors of the Issuer dated 05.08.2010 (Minutes No. 94.2010 dated 06.08.2010), an Administration for Internal Audit and Risk Management was established within the Issuer's organizational structure.

The Audit Committee of the Board of Directors (Minutes No.25/2015 dated 27.02.2015) agreed the establishment of directorate for internal audit and risks as a unit of the Department of Internal Audit and Control, Regulations on the Department of Internal Audit and Control were approved by the General Director on 24.03.2015.

The main tasks of the internal control and risks include:

- arrangement of effective interaction and support of the Audit Committee of the Company;
- organization of the system of internal control and risk management;
- implementation of preventive procedures and monitoring;
- interaction with state regulatory authorities on internal control.

The main functions of the internal control and risks include:

- arrangement of the system of internal control and risk management;
- arrangement of activities for the implementation, improvement and development of common approaches to risk-oriented internal control system in the Company;
- interaction with the external auditor on the evaluation of the effectiveness of internal control and risk management;
- assessment of the efficiency of internal control, risk management and corporate governance;
- ensuring awareness of the Company's management on the results of risk management, trends and status of the risk management system;
- interaction with the Audit Committee of the Board of Directors on the issues related to internal

control, risk management and corporate governance;

- organization of the development of corrective actions based on the results of audits of the Company, aimed at eliminating deficiencies and implement the recommendations issued by the Audit Committee of the Company, control over their execution;
- keeping records of inspections conducted by external bodies control (supervision), and their results.

Information on the Issuer's separate structural unit of internal audit, its tasks and functions:

The Audit Committee of the Board of Directors (Minutes No.25/2015 dated 27.02.2015) agreed to the establishment of the directorate of internal audit as a part of the Department of Internal Audit and Control, the Regulations on the Department of Internal Audit and Control were approved by the Director general on 24.03.2015.

Information on the Issuer's separate structural unit of internal audit, its tasks and functions:

The main tasks of the Internal Audit are:

- arrangement, planning and implementation of procedures for follow-up activities of the Company and its subsidiaries;
- arrangement of activities of the Audit Commission of Company's subsidiaries and affiliates;
- cooperation with the Audit Committee of the Board of Directors of the Company within the functional subordination.

The main functions of the Internal Audit are:

- planning, arrangement and conducting of internal audits;
- evaluation of the reliability and efficiency of the internal control and risk management, detection of drawbacks in internal control system;
- preparation of proposals and recommendations by the results of the internal audits and evaluations;
- monitoring the elimination of violations and deficiencies detected by the results of internal audits;
- preparation of reports to inform authorities on the results of the Company's internal audit function;
- preparation of plan and programmes for audits of subsidiaries and affiliates;
- organization of record keeping of audit commissions of subsidiaries and affiliates (including preparation of notifications, reports, etc.);
- conducting the audits of financial and economic activities of subsidiaries and affiliates preparing opinions (acts);
- implementation of post-control and control of subsidiaries and affiliates for elimination of violations and implementation of recommendations and instructions given by the Audit Commission;
- interaction with the Audit Committee of the Board of Directors on internal audit.

The Issuer's policy in the sphere of risk management and internal control systems is described in paragraph 2.4 of this quarterly report

The issuer has ratified (approved) an internal document of the issuer which establishes the rules for preventing the misuse of confidential and insider information.

Data on the issuer's internal document establishing rules aimed at preventing the misuse of

confidential and insider information:

The Issuer approved an internal document establishing the rules for prevention of use of service (insider) information.

The Issuer has approved (endorsed) an in-house document establishing the rules for prevention of use of proprietary (insider) information.

Details of availability of a document for prevention of use of proprietary (insider) information:

In accordance with requirements of Federal law No. 224-Φ3 dated 27.07.2010 “On prevention of illegal usage of insider information and market manipulation and on introduction of changes to particular legislative acts of Russian Federation” the Issuer has accomplished the following activities:

- by the decision of the BoD (minutes of meeting No.168/2013 dd 02.08.2013) a restated version of Regulations on insider information of “Kubanenergo” JSC was approved;
- the list of insider information was formed;
- the list of persons regarded as insiders was made;
- the notifications on inclusion of particular persons to the list of insiders were sent;
- the list of insiders was sent to organizer of trade on the securities market.

The issuer plans to continue on the events aimed at organization and development of mechanisms of control over observance of insider information legislation.
